MIDE

LINTHICUM WALKS ("BRIGHTSEAT") TOBACCO BARN AA-782

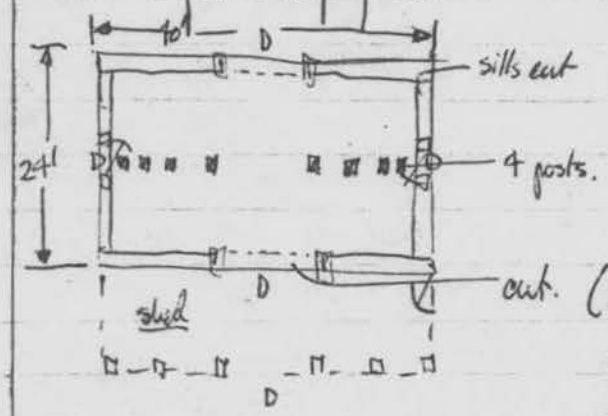
not typical - use of girts rather than as plates (on ground level) - may be reused in this position - flipped over (Mortise holes indicate this). Also have horizontal rails. Wrought iron nails - 1 double shank nails. c1860+ cut nails.

Tilted false plate. Was shed original? Probably not.

Connections on rail/uprights - Roman numerals note connections.

4' rooms, 8' bays = 40' x 24' overall dimensions, less siding.

(E) Had shingles as roofing material. Vertical board siding (no orig. longer extant).



(N) (S) D = door

(W) (Note barn not typical, as connecting sills between door openings never present, as in Tracy's Landing Tobacco Houses.

get field notes from Orlando.

Approx 50° roof pitch.

(NOTE: See full size drawing in map drawer, marked "Friends of Friendless Farm Buildings")
