DESCRIBE THE PRESENT AND ORIGINAL (IF KNOWN) PHYSICAL APPEARANCE

This is a brick pair of houses, detached on the right and similar to the row on its left (E) side. It is approximately four bays square with #32 having a full-width, two story, brick wing, four bays deep. All brickwork is in common bond. Front entrances occupy the outer bays with turn-of-the-century, six panel doors and narrow, segmental arched overlights. All windows are of 2/2 sash with two row header segmental arches as over the doors. There are two small, four sash windows on the left side of the wing and a four panel door. The front section roof slopes to the rear and the wing has a shed roof. The front roofline has a boxed cornice with the wooden frieze neatly trimmed by a band of dentils, mouldings and small Victorian-cut brackets, as on the adjoining row of houses. The building rests on a low fieldstone foundation and is fronted by a brick pavement.
