DESCRIBE THE PRESENT AND ORIGINAL (IF KNOWN) PHYSICAL APPEARANCE

#117 is a 2-1/2 story brick attached house, 3-1/2 bays wide and approximately two in depth with an older, 2-1/2 story frame, "L" shaped wing, two bays wide and approximately four in depth with a side balcony. The front facade is laid in common bond and the earlier frame wing section is now sheathed by asphalt shingles of a brick design. The front entrance occupies the right (E) bay with a newer door. A board and batten gate in the left one half bay fronts an enclosed passageway to the rear yard. All front windows are now of 1/1 sash with two or three brick header segmental arches, as above the door. As on #113 and 115, the infills are adorned by panels and carved roundels. Wing windows retain old 6/6 sash, and a four panel door leads to the kitchen. The wing attic is lighted by a six pane window in the end gable. The front section has a moderate slope, metal "A" frame roof resting on three string brick cornices. A small chimney rises off center above the front slope. The wing has a low slope shed roof. This house rests on a rather low brick-faced fieldstone foundation.
