

**Maryland Historical Trust  
Historic Revitalization Tax Credit  
Part 3 Itemized Expense Sheet  
Homeowner & Small Commercial Properties  
Instructions & Example**

Revised 6/1/2019

The Part 3 application must be accompanied by the Itemized Expense Sheet and documentation accounting for all project expenses. Please use the Itemized Expense Sheet provided by MHT, as it is part of the application and has been formatted to include all necessary information and to auto-calculate totals. Instructions on filling out the Itemized Expense Sheet are below. Note – a project that includes both owner-occupied (homeowner) and income-producing (small commercial) components must use the spreadsheet for mixed-use properties.

**Column 1: Date of payment**

The spreadsheet must be filled out chronologically according to the date of payment, starting from your first payment. You should use the date of the cancelled check or credit card payment as your “Date of Payment” – not the date of the invoice.

**Column 2: Your page #(s) of invoice / receipt / check**

For each item on the spreadsheet you must include BOTH (1) a copy of the invoice or receipt, showing which goods or services were purchased, and (2) certifiable proof of payment. In many cases a credit card receipt (such as an itemized receipt from Home Depot) will suffice for both purposes. Please submit copies of the proof of payment with sensitive information and account numbers redacted or blacked out for security purposes.

Certifiable proof of payment must consist of one of the following:

1. A dated credit card receipt
2. A cancelled check
3. A bank statement showing the (i) check number, (ii) date, (iii) payee name, and (iv) amount paid
4. A signed statement from the contractor or vendor stating the amount paid and date of payment. An invoice simply marked ‘PAID’ or with a \$0 balance is not sufficient documentation. \*A signed statement will only be accepted as certifiable proof of payment for payments made in cash.

MHT recommends that you provide one invoice, receipt, or certifiable proof of payment per sheet of paper. The upper corner of each sheet must be numbered in chronological order, organized with the invoice followed by the certifiable proof of payment for each item on the spreadsheet. If you are using a bank statement that includes payment for multiple invoices on the same statement, the page number of the correlating invoice must be written next to the payment. The page number that you have assigned to the invoice / receipt / proof of payment must be entered in Column 2 on the spreadsheet.

**Column 3: Payee for item (name of contractor, company, etc.)**

The name of the contractor, vendor, or company to whom you made the payment must be written in this column.

**Column 4: Part 2 Work Item #**

In this column you will indicate the Work Item number from the Part 2 application that corresponds to the expenditure. If the work was approved in a later Amendment, you can simply write 'Amend' in this column. If one expenditure applies to multiple Work Items, please list all Work Item numbers using one of two methods.

(1) If several Work Items apply, you may either list all Work Item numbers in one line:

Date of Payment	Your page #(s) of invoice / receipt / check	Payee for Item (name of contractor, company, etc.)	Part 2 Work Item #	Description of Expenditure	Expenditure Amount	Eligible Expense	Ineligible Expense
1/5/2019	1	Home Depot	2, 5, 6	Door hinges, electrical cable, new bathroom sink	\$97.67	\$97.67	

(2) Or you may use one line for each Work Item number:

Date of Payment	Your page #(s) of invoice / receipt / check	Payee for Item (name of contractor, company, etc.)	Part 2 Work Item #	Description of Expenditure	Expenditure Amount	Eligible Expense	Ineligible Expense
1/5/2019	1	Home Depot	2	Door hinges	\$32.37	\$32.37	
			5	Electrical cable	\$19.98	\$19.98	
			6	New bathroom sink	\$45.32	\$45.32	

**Column 5: Description of Expenditure**

This column will include a brief description of the expenditure. It is not necessary to reiterate the full description of the Work Item. Rather, it is important to be clear about what work or what item was paid for.

**Column 6: Expenditure Amount**

In this column you will note the amount of the total expenditure (or portion of expenditure, depending on how you fill out Column 4, as shown above. If the expenditure includes a portion of ineligible work, you must still include the total expenditure and separate out eligible vs. ineligible costs in Columns 7 and 8.

**Column 7: Eligible Expense**

In this column you will list the total amount from Column 6 that is an eligible expense. The program FAQs and Application Instructions give general guidance about eligible expenditures. If you have specific questions, please contact MHT tax credit staff for clarification.

**Column 8: Ineligible Expense**

In this column you will list the total amount from Column 6 that is an ineligible expense. The program FAQs and Application instructions give general guidance about ineligible expenditures. If you have specific questions, please contact MHT tax credit staff for clarification.

---

**Additional Instructions:**

The spreadsheet is set up to include formulas that will automatically calculate totals when you enter amounts into Columns 6-8. If you need more lines on the spreadsheet, you should click to select a row number on the left-hand side of the spreadsheet, then right-click on the selected row and select "Insert". This should not affect the formulas that have been entered – *but it is always important to double check all totals are correct before you submit.*

If you have ineligible funding sources, you will note those on the appropriate line within the grey box on the spreadsheet. The spreadsheet should automatically calculate – *but it is always important to double check all totals are correct before you submit.*

Insurance Reimbursement Funds – any expenses that are covered by an insurance reimbursement and are not out-of-pocket costs to the property owner are considered ineligible. If you are reimbursed for any expenses through an insurance claim, you must note this on the spreadsheet.

Local Government Funding – any expenses that are covered by a local grant, loan, etc. program is considered ineligible. If you are receiving a local grant or loan, you must note this on the spreadsheet.

State Government Funding – any expenses that are covered by a State grant, loan, or tax credit are considered ineligible. If you are receiving additional funding by the State, you must note this on the spreadsheet.

*\*Additional funding from the Federal Government does not need to be backed out of the eligible expenses.*

The totals calculated in the Itemized Expense Spreadsheet must be used to fill out Section 2 of the Part 3 application form. An example spreadsheet and supporting documentation are shown on the following pages.
