Department: Planning / Maryland Historical Trust

Opening Date: January 7, 2019

Closing Date: February 11, 2019

Salary: Not to exceed \$6000.00

Employment Type: Temporary

Work Location: Anne Arundel Co., Maryland and various

The Maryland Historical Trust (Trust) is seeking candidates for its 2019 Summer Internship in Archeology. Interns serve a maximum of 400 hours over a period of 10 consecutive weeks to begin on or about May 20, 2019. Current graduate students in anthropology/archeology are preferred; students currently enrolled in or who have recently graduated from an accredited undergraduate program in anthropology/archeology or other closely related field are encouraged to apply.

The intern will work under the general supervision of the Chief Archeologist and time will be divided between office/laboratory and field work in support of the Trust's terrestrial and maritime archeology programs. Field work will take place in a variety of settings and involve use of hand tools, electronic surveying equipment, and small boats, canoes, and/or kayaks. It will include support activities associated with the Annual Tyler Bastian Field Session in Maryland Archeology, marine geophysical and remote sensing surveys, and archeological site visits and inspections. Office/laboratory work is expected to include artifact sorting, washing and cataloging, records processing and filing, GIS data manipulation, and general data organization and entry tasks. Opportunities will also be available related to other aspects of the Trust's archeology programs, such as project review and compliance, and outreach activities

Field work will require occasional work outside of normal business hours (early mornings, evenings, weekends, and holidays), extended work days, overnight travel, and camping; office/laboratory work will be conducted during normal business hours.

Interns will receive a total amount not to exceed \$6,000.00 paid in bi-weekly increments based on the number of hours worked at a base rate of \$15.00 per hour.

Successful completion of an archeological field school or equivalent and familiarity with ArcGIS are required.
