

Shipway's Restaurant and Garage
AL-1-A-050

As automobiles increased both in popularity and number filling stations, garages, and restaurants were built to provide service to people traveling Route 40. The original part of the restaurant has been obscured by various additions, but the garage, built during the 1920's, retains its original appearance. The double doors and windows adorned with advertisements preserve the flavor of this business place. Since Route 40 was relocated in 1950's and early 1960's business has declined for the restaurant and the garage has closed.

DESCRIBE THE PRESENT AND ORIGINAL (IF KNOWN) PHYSICAL APPEARANCE

Shipways Restaurant and Garage are located on either side of Scenic Route 40 on Green Ridge.

The Restaurant originally consisted of a rectangular two and one half story and seven bays wide (on the south) frame structure with german siding covered with asbestos shingles. The low foundation is of poured cement with a plain water table. The gable flank roof is covered with pressed tin shingles with lightning rods. Eaves consist of a box cornice, soffit, bedmould, and returns. Chimneys include one interior corbeled brick and one pipe chimney. A shed roofed wraparound veranda with decorative posts is on the southern facade. An extended arcade has a shallow gabled roof with rofter ends exposed. Windows of the original are nailed one over one lights, some impairs with mullion.

The earliest addition was probably the gabled frame "wing", perpendicular to the original on the southeastern corner. A hipped roof front "was added to the southern gable end of this"wing". A pyramid roofed square frame addition abuts the "wing" on the east. Both hipped roof additions have ribbed tin roofs and a gabled dormers. The main entrances on the later additions lead to the dining room. They consist of double doors each with three recessed panels and original hardware. Two shed roofed additions and a flat roofed dormer are on the north of the original.

The original part of the garage is a one story, three bays wide shed roofed frame structure with german siding. It rests on wooden posts, with no water table. Eaves consist of a simple cornice and soffit. The one cinderblock chimney is located outside end.

The main entrance in the center of the northern facade. This includes a set of double doors, each with two recessed panels, one light, and original hardware. Two large fixed eight light windows surround the entrance. A large roof is extended over the service area.

On the east is a small gabled frame garage with shiplap siding. It rests on a poured cement foundation and has sliding garage doors. On the west is a rest area and motel office covered with metal advertising signs.

STATEMENT OF SIGNIFICANCE

Shipway's Resturant and Garage are situated on what is now Scenic Route 40. These buildings are examples of businesses that grew up in the age of the automobile.

The automobile began having its greatest impact in Allegany County in the 1920's (1) Automobile dealerships began springing up in the main towns of the county like Cumberland and Frostburg. (2) "Concomitant with the growth of the automobile was the increasing number of gasoline filling stations and auto repair shops, which sprang up not only in the cities and towns of the area but in the surrounding rural countryside as well." (3) Shipway's Garage is an example of one of the rural auto repair and filling stations that were built for the automotive era. Shipway's Restaurant exemplifies the restaurant and inn type of establishment which boomed in the age of the automobile and which served those traveling on old Route 40.

In the 1950's and early 1960's much of Route 40 east of Cumberland was rebuilt and widened. "As people increasingly turned to the automobile for transportation, they demanded new and better roads." (4) Thus, the same factor that had created business for Shipway's Restaurant and Garage-the growth of automobile transporation-also caused its decline. Route 40 was re-routed and no longer took automobile past Shipway's establishment. Because of this change in the route, the restaurant and garage have begun a decline which continues to the present day.

Although the restaurant has been altered, the garage building retains its original appearance. The original entrance and door are still on the building, which has helped to preserve its appearance.

Shipway's Restaurant and Garage stand as reminders of the importance of the age of the automobile to the small-business economy of Allegany County.
