

AL-I-B-040 Hartley Log House
Little Orleans Rd.
Bellegrove, Allegany Co. MD
Eligible, Criteria A, C, D

The Hartley Log House is one of the oldest structures in eastern Allegany County. Although it is in extremely deteriorated condition, it is still marginally restorable and the early settlement site is of archeological significance. As the only access is across a muddy farm field the following description is synthesized from the Maryland Historical Trust Inventory Form. This two-story log house faces former Rt. 40, now Rt. 68, to the north. A two bay addition stands at the east end. German siding covers the building. A large stone chimney appears at the east end of the original house. A one-story shed roofed porch covers the entire front of the house. A two story galleried porch runs across the eastern two-thirds of the rear, while a one story porch covers the rest of this side. The windows are 6/6 sash on the first floor and 6/3 sash on the second floor. The house stands on a stone foundation and the gable roof is covered in corrugated metal.

James Thomas Hartley (b. 1832) built this house in about 1850. As of 1979 the farm was still owned by the Hartleys. This house is a fine example of a mid-nineteenth century settlement structure in this mountainous area where farming is marginally successful. The building's location on the Old National Pike reflects the significance that this access brought to the region. The large well-built stone chimney is an outstanding feature of this house. Closer inspection may reveal further architectural significance of the structure. Despite this building's deteriorated condition it retains integrity of location, design, setting, materials, workmanship, feeling, and association and is therefore recommended as eligible for the National Register of Historic Places.

View of Hartley Log House (AI-I-40).

Hartley Log House
AL-1-B-040

Hartley Log House was built before the Civil War by James Thomas Hartley. Born in 1832, Hartley was an early settler of the sparsely populated eastern end of Allegany County. The two story, three bays wide log house he built is typical of log houses built in that period. An original stone chimney has been enclosed by a frame addition.

DESCRIBE THE PRESENT AND ORIGINAL (IF KNOWN) PHYSICAL APPEARANCE

Hartley Log House stands on the southern side of Route 40 at Piney Plains.

The original log building is two stories tall, three bays wide covered with german siding. It rests on stones laid at the corners. The gable flank roof is covered with corugated tin with snowbirds. Eaves consist of a cornice and sloped soffit. A large stone chimney originally outside end of the log section is now enclosed by an addition.

The entrance is in the middle of the eastern facade of the original. Windows are pegged six over six and six over three lights. Gable frame additions with german siding are on the east and west. Full length shed roofed porches are on the north and south. The porch on the south is partially two tiered.

STATEMENT OF SIGNIFICANCE

Hartley Log House was built around 1850 by James Thomas Hartley.(1) It is typical of log houses built in eastern Allegany County in the mid 19th century with its two story, three bays wide design. Mr. Hartley was an early settler of the area born in 1832.(2) Like most families settling and farming the area, he relied on the locally abundant forests to provide inexpensive and functional building material. The most interesting feature of this log house is the large stone chimney that is original.
