

THE OLD EBENEZER

AL-V-A-038

$\frac{1}{2}$  mile north of Route 40, Eckhart  
1842

The Old Ebenezer Church was the first Methodist Episcopal Church in Eckhart. The building was approximately 30 x 40 feet and was constructed of logs. It is one and a half stories high and three bays wide. Windows in the original church building were double hung wooden sash frames with three over one lights and cornices. The church was in use until 1866 when increased population due to the expanding coal industries, forces the congregation to build a second church.

DESCRIBE THE PRESENT AND ORIGINAL (IF KNOWN) PHYSICAL APPEARANCE

"Old Ebenezer" is located  $\frac{1}{2}$  mile north of Route 47 off the Parkersburg Road in Eckhart, Maryland.

The building was constructed in 1842 as a Methodist Church, and displays the typical rectangular block 30 feet by 40 feet. It is one and a half stories tall and three bays wide. Walls are of frame construction with the use of weatherboarding, and are now covered with varying patterns of insul brick. The north, east and west sides of the structure are now abutted by a single story, continuously enclosed hipped roof porch. Windows in the porch area are all single wooden sash frames, including some with one, six and 13 lights. Windows on the original church block are double hung wooden sash frames with three over one lights and cornices. The original main entrance has been replaced, but the primary entrance is still on the north side. The gabled roof with replaced asphalt materials features a soffit. There is one gabled dormer on the west side of the roof. Just to the north of the dormer lies a corbeled brick chimney that was added much later than 1842. "Old Ebenezer" is built on a hill that slopes from east to west and lies on a high stone foundation on that west side.

The house is structurally sound and has been altered considerably. It is presently in fair condition.
