

DORSEY LOG HOUSE

AL-V-B-055
McMullen Highway, Robert's Place
ca. 1850

The Dorsey House was originally a two story log mansion. Several frame additions have been made to the log portion since its original construction and the entire structure is now covered with insul brick. The Dorsey House is in fair condition and retains much of its original fabric and appearance.

DESCRIBE THE PRESENT AND ORIGINAL (IF KNOWN) PHYSICAL APPEARANCE

The Dorsey Log House is located on McMullen Highway in Robert's Place, Allegany County.

The Dorsey House is a two story, five bay wide irregular rectangular block. The original portion of the building, now located on the north side of the structure was constructed of logs. Frame additions abut the log section on the south and east sides. The entire building is now covered with insul brick and rests on a high stone foundation. The roof is gabled with a wide soffit and is covered with replaced asphalt shingles. Windows in the structure are double hung, pegged, wooden sash frames with six over six lights. The main entrance is located on the west facade. The door itself has been replaced; however, it does feature the original transom light. A three bay, hipped roof end porch is also located on the main facade. Five original corbeled brick chimneys are located in the inside gable ends of the building.

SPECIFIC DATES

BUILDER/ARCHITECT

STATEMENT OF SIGNIFICANCE

During the first half of the 19th century the predominant form of architecture in Allegany County was the log cabin. These log houses were functional, sturdy and easy to construct. In many instances they were meant to provide temporary housing until the family could build a larger frame structure. In the case of the Dorsey House several frame additions were simply added to the original two story log mansion and the entire building was covered with clapboards.
