Is the property located within a historic district? no yes Name of district: _____

Is district listed? no yes Determined eligible? no yes District Inventory Number: _____

Documentation on the property/district is presented in:

Description of Property and Eligibility Determination: (Use continuation sheet if necessary and attach map and photo)

The Kevin and Sandra McKenzie Property, constructed in 1949, is a 1-story, 3-bay, cross-gable, Minimal Traditional-style house located at the northeast corner of Campground Road and Simpson Avenue. The house lacks architectural significance. The building is of wood-frame construction with a concrete block foundation, asbestos shingle siding, and an asphalt shingle roof. The north bay of the front elevation projects forward with a front-gable roof, forming the structure's L-shape. The windows, flanked by decorative shutters, include vinyl 1/1 replacements and a 3-part picture window. An interior brick chimney projects from the west slope of the roof. The house has a front-gable, wood-frame screen porch attached to its east elevation. The basement is exposed on the south elevation, providing access to paired wood basement doors.

The Kevin and Sandra McKenzie Property is not eligible for the National Register of Historic Places due to a lack of architectural significance. This property does not represent a historic event or trend that made a significant contribution to the development of the nation, state, or local community, and therefore is not eligible under Criterion A. Historic research also indicates that the property has no association with persons who have made specific contributions to history, and therefore, it does not meet Criterion B. The Kevin and Sandra McKenzie Property is an indistinctive example of the Minimal Traditional style found throughout suburban areas, and is therefore ineligible under Criterion C. Finally, investigations have not been conducted to determine whether the property has the potential to yield information important in history or pre-history, therefore, National Register Criterion D cannot be evaluated at this time.
