Is the property located within a historic district?  X no  yes  Name of district: 

Is district listed?  no  yes  Determined eligible?  no  yes  District Inventory Number: 

Documentation on the property/district is presented in:

Description of Property and Eligibility Determination: (Use continuation sheet if necessary and attach map and photo)

The Christina McKenzie Property, constructed in 1920, is a 2-story, 4-bay, side-gable residence located on the east side of Campground Road immediately north of Braddock Run. The house lacks architectural significance and material integrity. The structure is of wood-frame construction with a stone foundation, aluminum siding, and an asphalt shingle roof. The windows are 1/1 double-hung replacements with vertical muntins and decorative shutters. A central brick chimney projects from the roof. A hipped roof with wrought iron supports forms a covered stoop on the west elevation. A 1-story, frame, shed-roof porch has been added to the south elevation of the rear ell. To the southeast of the house is a front-gable, concrete block garage with a partially glazed wood overhead door and asbestos shingling in its gable.

The Christina McKenzie Property is not eligible for the National Register of Historic Places due to a lack of architectural significance and material integrity. This property does not represent a historic event or trend that made a significant contribution to the development of the nation, state, or local community, and therefore is not eligible under Criterion A. Historic research also indicates that the property has no association with persons who have made specific contributions to history, and therefore, it does not meet Criterion B. The house is an indistinctive example of a common building type. The window and door replacements, aluminum siding, and covered stoop added to the structure have diminished its integrity. Therefore, the property does not retain sufficient integrity to meet National Register Criterion C. Finally, investigations have not been conducted to determine whether the property has the potential to yield information important in history or pre-history, therefore, National Register Criterion D cannot be evaluated at this time.
