### Specific dates

### Builder/Architect

check: Applicable Criteria:  A  B  C  D  
and/or  
Applicable Exception:  A  B  C  D  E  F  G  
Level of Significance:  national  state  local

Prepare both a summary paragraph of significance and a general statement of history and support.

**MD State Historic Sites Inventory Form**  
**Continuation Sheet 7.1**

**MHT # AA:** 2193

**Building NA7**  
**Battery House**  
**Anne Arundel County**

**DESCRIPTION**

**Contributing Resource Count: 1**

Construction of the Battery House (Building NA7), a small one-story, rectangular brick structure (Photo 41500-17) located near the intersection of East Road with Hooper High Road in Anne Arundel County, Maryland, occurred in 1918 according to Naval Academy North Severn documents. Surrounded by grassy fields to the east and south, the battery house stands a short distance east of the Helix House (Building NA5). A dirt and gravel drive lies north of the Battery House.

Building NA7 exhibits 5-1 common brick bond and stepped-parapets topping its west and east elevations. The parapets obscure sight of the structure's shallowly-sloped shed roof sheathed with tar (Photo 41500-18). Metal flashing caps the parapets. A steel door penetrates the north elevation of the Battery House. Pairs of metal louvers provide ventilation to the building through the north and south elevations as well. Modern brick infill between and above the louvers on both elevations probably indicates the openings have been reworked.
