Eligibility recommended Eligibility not recommended

Criteria: A B C D Considerations: A B C D E F G None

Justification for decision: (Use continuation sheet if necessary and attach map)

Building 128NS located at the U.S. Naval Station in Anne Arundel County is not located in an historic district, nor is it individually eligible for listing on the National Register of Historic Places.

Building 128NS is a quonset hut built in 1947. It is set upon a concrete foundation and is constructed of corrugated metal with 1/1 wood sash. Based upon the original plans and elevation drawings, it appears that the building retains its original exterior and interior form, configuration and details. Although Building 128NS does embody the distinctive characteristics of its type (the Quonset Hut), the building type from this period was more than common in a military setting. This particular quonset hut, which was built as administrative offices for the Naval Station and continues to function as such today, has no associations with persons or events significant to our past. For these reasons (ubiquitousness and lack of historical significance), Building 128NS is not considered eligible for listing on the Register under Criteria A, B, or C.

Documentation on the property/district is presented in: Review and Compliance Files
