ADDITIONAL ARCHITECTURAL OR STRUCTURAL DESCRIPTION:

AA-684

Altered French Second Empire mansion, now "Georgian" with five part plan, gabled roof dormers, Palladian window in rear pavillion, belt courses, round arched windows in wings, Venetian windows in end walls of wings, all in 1935.

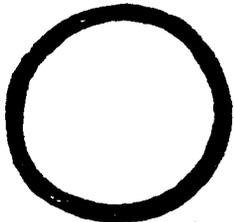

RELATED STRUCTURES: (Describe)

STATEMENT OF SIGNIFICANCE:

While a good example of the Georgian Revival of the 20thC, the pastiche replaced an exceptional Second Empire structure, rare in Annapolis. Georgian Revival massing and detailing compatible to State House, and building is compatible with streetscape despite deep setback, but Second Empire structure of 1868-69 would be of more importance.

4. NOTABLE FEATURES, HISTORICAL SIGNIFICANCE AND DESCRIPTION OPEN TO PUBLIC at times

The Governor's Residence, aside from obvious historical association, is notable in that a Victorian Mansion with mansard roof of 1869 has been remodeled (1935) into a Georgian country house of 5 parts - with hyphens and wings. The Georgian remodeling was good in that there is use of very Maryland Georgian elements (authentic elements) etc., however, the scale is entirely too large and the result is a large pile of brick that looks like a Colonial Revival fraternity house of the 1920s. A few Victorian period sections remain untouched and are visible from College Avenue side. The state is presently undergoing \$150,000 interior renovation. Govt. House has a prime location and the fence and gardens are very nice, etc. This pile is illustrative of a well meaning attempt on the part of interested persons who understood Annapolis' architectural heritage but were, in effect, blind.

is within boundaries of Colonial Annapolis Historic District (NHL)
