DESCRIBE THE PRESENT AND ORIGINAL (If known) PHYSICAL APPEARANCE

This building dating from the mid to late 1800's is located in the middle of the block and is three stories high and three bays wide. The facade has been altered in an effort to modernize, blocking up the full arched entrance way which the attached photograph shows to be a bit patchy. The windows at the first floor have been lowered and changed from arched to rectangular with a stone and wooden front running the height of the first floor and the width of the facade. A small octagonal window with 9 lights is placed above the rectangular entrance door. The first and third bay second floor windows have also been modernized with some 65 lights in each. The remaining middle window of the second floor and those of the third story are arched and double hung with nine-over-nine lights. Arched brick lintels decorate the second and third story windows.

The building has a wooden cornice with brackets which adorns the roofline.
