DESCRIBE THE PRESENT AND ORIGINAL (if known) PHYSICAL APPEARANCE

DESIGNED AND BUILT BY ROBERT CARY LONG, JR., NATIVE BALTIMORE ARCHITECT, THE PRESENT CHURCH BUILDING DATES FROM 1842, ANOTHER CHURCH HAVING OCCUPIED THE SITE PREVIOUSLY. GOTHIC REVIVAL IN STYLE, THE CHURCH IS THE FIRST IMPORTANT STRUCTURE TO BE BUILT IN THIS MANNER IN BALTIMORE, WHERE REVIVAL STYLES HAVE HAD SUCH A LONG HISTORY. THE THIN, LIGHTLY BUTTRESSED AND BATTLEMENTED WALLS ARE SOMEWHAT AUSTERE, LEADING ONE HISTORIAN TO CONSIDER THE EFFECT "MILITARY" GOTHIC.

THE BRICK CONSTRUCTION IS SET OFF BY STONE TRACERY CHARACTERISTICALLY CARRIED OUT IN THE POINTED-ARCH WINDOWS CONSPICUOUS ON THE WALLS OF THE RECTANGULAR BUILDING AND EXTENDING ALSO INTO TWO STAGES OF THE TIERED TOWER. THIS TOWER, WHICH LONG DESCRIBED AS ASCENDING IN STAGES "LIKE THE JOINTS OF A TELESCOPE", IS 200 FEET TALL, FIFTY FEET TALLER THAN THE LENGTH OF THE BUILDING. IT RISES FROM THE VESTIBULE CENTERING THE SOUTH END OF THE BUILDING, IN JUXTAPOSITION TO A ROUNDED APSE AT THE NORTH END.

IRON WAS USED IN THE SPIRE AND ALSO REINFORCES INTERIOR COLUMNS. PLASTER AND WOOD REPLACE THE EXPECTED STONE IN THE BUILDING'S INTERIOR. THE ORNATE AMBIENCE IS HIGHLIGHTED BY THE ORIGINAL STAINED GLASS OF MUNICH ORIGIN, THE WOODEN COLUMNS AND ELABORATE RIBBING ARE PAINTED TO RESEMBLE MARBLE.

THE EXTERIOR, ORIGINALLY PAINTED AS THE DESIGNER HAD INDICATED, WAS SANDBLASTED IN 1968 AND NOW RETURNED TO ITS NATURAL BRICK, THE RESULT IS SOMEWHAT MORE COMMONPLACE THAN THE ORIGINAL, DESCRIBED IN AN EARLIER DAY AS FOLLOWS:

"....THE DESIGN OF THE WHOLE BUILDING IS FURTHER ENHANCED BY THE PALE WARM GREY COLOR OF THE PAINTED WALLS AGAINST WHICH ALL THE DECORATIVE ORNAMENT IS PICKED OUT IN CORAL PINK".

IN ADDITION TO QUESTIONING THE ESTHETIC ASPECTS OF THE RECENT MOVE, AN OBSERVER ALSO NOTES THAT SOME OF THE BRICKS, NO LONGER PERFECTLY COATED, ARE SHOWING SIGNS OF WEAR AND THE CITY'S ABRASIVE ATMOSPHERE.

ADJACENT TO THE CHURCH ARE THE FOUR-STORY RECTORY AND THREE-STORY OFFICE BUILDING, BOTH OF BRICK AND BOTH PRESENTING MANY-WINDOWED FACADES TO THE STREET.

STATEMENT OF SIGNIFICANCE

ST. ALPHONSUS CHURCH WAS THE FIRST IMPORTANT COMMISSION RECEIVED BY ROBERT CARY LONG, JR. AND IT UNDOUBTEDLY AFFECTED FAVORABLY THE NATIONAL REPUTATION THE BALTIMORE ARCHITECT WAS SOON TO ACQUIRE.

THE CHURCH WAS BUILT TO MEET THE NEEDS OF A RAPIDLY INCREASING GERMAN CATHOLIC CONGREGATION, WHICH IN 1840 HAD OUTGROWN THE ORIGINAL CHURCH ON THE SAME SITE, ST. JOHN THE EVANGELIST. THE CONGREGATION WAS PUT IN CHARGE OF THE REDEMPTORISTS AT THIS TIME AND AS A RESULT OF THAT ORDER'S PRESTIGE IN THE HOME MISSION FIELD, MUCH OF THE BUILDING FUND WAS CONTRIBUTED BY MISSIONARY AID SOCIETIES IN AUSTRIA, BAVARIA AND FRANCE.

TODAY THE CHURCH HOLDS MASS AT LEAST ON SUNDAY AND FREQUENTLY DURING THE WEEK. THE BUILDING IS CAREFULLY MAINTAINED AND THERE IS LITTLE SIGN OF PHYSICAL DETERIORATION. THE MOST FLAGRANT ABUSE OF THE DESIGN MAY BE THE RELATIVELY RECENT INSTALLATION OF AIR-CONDITIONING EQUIPMENT WHICH OBSCURES THE VIEW FROM THE GALLERY. HOWEVER, AS THE SEXTON TELLS VISITORS, THE GALLERY IS BARRED "FOR SECURITY REASONS".

DESCRIBE THE PRESENT AND ORIGINAL (if known) PHYSICAL APPEARANCE

St. Alphonsus' Church is located on the northeast corner of the intersection of Park and Saratoga Streets in Baltimore.

St. Alphonsus' Church is a Gothic-Revival building that combines German and English Perpendicular Gothic details. St. Alphonsus' is basically a large rectangular space with aisles and nave of the same height. The uniform height of the ceiling has a feeling similar to that of the box-like collegiate chapels in England, e.g. Kings College Chapel, Cambridge. At the same time the open interior space resembles a "hall-church" familiar to the Redemptorists, who commissioned the Church in the Gothic architecture of their native Germany. The star-shaped vaults, although made of plaster, and the Perpendicular-style windows and tracery came from English sources. The effect produced by the duration is reminiscent of the interiors in the British House of Parliament by Charles Barry and Augustus Puzin. The walls and ceilings are stenciled with a strong gold accent. The clustered iron columns are marbled.

German Catholic examples provided the precedent for the apse containing the altar flanked on each side by an apsidal space containing a side altar. On the exterior, the central tower located over the center door on the south facade has an appearance similar to towers found in many German towns.

The floor plan--notably the vestibule which runs the entire length of the southern end of the church -- is a characteristic of the architect, Robert Cary Long, Jr. The crenelation, the stripped buttresses, the seven bay, east and west, facades, and the box-like shape -- these elements of St. Alphonsus' appear in Long's Franklin Street Presbyterian Church, Baltimore, a National Register of Historic Places property. Unlike the Franklin Street church, Long intended St. Alphonsus' Church to be painted a warm buff color. In 1968, in a burst of "Colonial" enthusiasm, the church had the paint blasted off. Long did not object to bare brick walls, rather he felt that the quality of brick available to him at the time was not adequate to remain bare.

In the nineteenth century the Redemptorists showed an appreciation for the architecture of Long's church and used similar designs for other church buildings on the same block. The three satellite buildings -- the Rectory, the Convent and the Halle--blend architecturally with St. Alphonsus' Church making a unified urban composition.

STATEMENT OF SIGNIFICANCE

SEE INSTRUCTIONS

St. Alphonsus' Church is an outstanding example of American Early Gothic Revival. Constructed between 1842 and 1844 it is one of the first Gothic buildings based on a careful study of medieval models which is most frequently characterized in the Anglo-American ecclesiological movement. Phoebe B. Stanton, in The Gothic Revival and American Church Architecture An Episode in Taste, (Baltimore: 1968, 225-238) has given the best assessment of the architectural significance.

Mrs. Stanton's book places the Baltimore architect, Robert Cary Long, Jr., in the same rank with Frank Wills, John Notman and John W. Priest. St. Alphonsus' was Long's first major commission. In it's design especially the interior, he benefited from his exposure to English Gothic Revival architects, notably A. W. Pugin. Long had travelled in Europe and had studied with Martin Euclid Thompson in New York and with his father in Baltimore. Though his brief career was terminated by his early death in 1849, Long made an important contribution to American Architectural Theory, notably in a series of articles for The Literary World (1848-1849) and for The United States Catholic Magazine (1843).

St. Alphonsus' Church, the institution, has played an important role in the history of Baltimore. The Redemptionist Fathers, a German order of Roman Catholic priests, raised the money to hire Long and erect the church. The Redemptionists had come to Baltimore to minister to the rising number of German immigrants. They erected a school at the same time as the church and provided education before the public school system had reached all children. The school burned and was replaced by St. Alphonsus' Halle (1873) which is still in use. In 1858 the Redemptionists began the St. Alphonsus' Orphan Asylum for German orphans. Two years later the Alphonsus Hall Building Association, which loaned mortgage money, became an incorporated lending institution in Baltimore City.

The Redemptionists have severed their ties with Baltimore City.

#6 - Representation in Existing Surveys (continued)

Maryland Register of Historic Sites and Landmarks
 1972 State
 Maryland Historical Trust
 2525 Riva Road
 Annapolis Maryland 24

#7 - Description - Continued

8-43 81 → St. Alphonsus' Halle, at 125-127 Saratoga Street, is a four-and-a-half-story brick structure with a central pavilion topped by a gable. A lancet shaped brick arch frames the central door. The second and third-story windows on the pavilion are lancet shaped. The dormers of the Halle are English Gothic.

The Convent at 112 W. Saratoga Street is three stories high, set on a high basement. The structure has both common and Flemish bond on its principal (south) facade. There is a molded brick cornice. The windows have flat or jack arches and marble sills.

The Rectory at 114 W. Saratoga Street, between the Convent on the east and the Church on the west is a symmetrical, five-bay, four-story structure. Built of brick, there is a belt course between the third and fourth stories.

#8 - Significance - Continued

However, the independent congregation that owns the church is an active inner-city institution ministering to the needy, irrespective of any German extraction. They maintain the Halle, a rectory and a convent.

St. Alphonsus' Church and its satellite buildings on Saratoga Street, the Halle (No. 125-127), the rectory (No. 114) and the Convent (No. 112) define the urban street scape with an important unified architectural statement.
