DESCRIBE THE PRESENT AND ORIGINAL (if known) PHYSICAL APPEARANCE

This building is located between the center and end of the block and was constructed circa 1860. It is three stories high and three bays wide and has a flat roof.

The brick exterior (laid in running bond) is accented by flat stone lintels and sills on the first story and flat arched splayed brick lintels and flat stone sills on the second and third story. The other significant architectural element of the house, the doorway is flanked by stone posts and a flat lintel and is located on the left. A brick stoop with wrought iron hand rails leads to the doorway. A cornice crowns the doorway.

Symmetrical fenestration proportionally scaled from first to third floors, punctuates the facade. The windows are double hung with two-over-two lights on the second and third story and six lights on the first story. A wooden cornice with brackets and a row of dentils adorns the roof line. The small front yard has a wrought iron fence.
