1869

Architect: Thomas U. Walter

This church is the only building in Baltimore designed by Thomas U. Walter, the architect of the dome and wings of the United States Capitol and first president of the American Institute of Architects. It is a notable example of the neo-Gothic style of architecture and it has been included in the Historic American Buildings Survey and mentioned in a number of architectural books. The church building, at the southern end of Eutaw Place, forms a fitting closure to the long vista of the park and its elegant structures.

The congregation was established by a group of 133 members of the Seventh Baptist Church in order to serve the then growing suburban neighborhood. This active group ran a Chinese Sunday School and trained missionaries to China. During its first twenty-five years, the church members were influential in founding four new churches throughout the city.
