DESCRIBE THE PRESENT AND ORIGINAL (if known) PHYSICAL APPEARANCE

This building is located in the middle of the block and was constructed circa 1860. It is three stories high and three bays wide and has a flat roof.

The brick exterior (laid in running bond) is accented by flat stone lintels and sills on the first story and flat arched splayed brick lintels and flat stone sills on the second and third story. The other significant architectural element of the house, the doorway, is flanked by two stone posts and a lintel and is located on the left. A stone stoop with wrought iron hand rails leads to the doorway. A cornice crowns the doorway which is surmounted by a transom.

Symmetrical fenestration proportionally scaled from first to third floors, punctuates the facade. The windows are double hung with one-over-one lights. A wooden cornice with a row of modillions and a row of dentils adorns the roof line.
