	(Check One)
	<input checked="" type="checkbox"/> Altered <input type="checkbox"/> Uncltered <input type="checkbox"/> Moved <input checked="" type="checkbox"/> Original Site
DESCRIBE THE PRESENT AND ORIGINAL (If known) PHYSICAL APPEARANCE	
<p>This building is located between the middle and corner of the block and was constructed in the 1860's. It is three stories high and three bays wide and has a flat roof.</p> <p>The brick exterior (laid in running bond) is accented by flat stone lintels and sills. The other significant architectural element of the house, the doorway, is flanked by two wooden posts and a lintel and is located on the left. Seven brick steps flanked by a wrought iron hand rail lead to the doorway. A cornice crowns the doorway which is surmounted by a plain transom. There is a basement entrance to the right of the main entrance decorated with a wrought iron grate.</p> <p>Symmetrical fenestration proportionally scaled from first to third floors punctuates the facade. The windows are double hung with two-over-two lights. The two first floor windows have wrought iron balconies. A wooden cornice with a row of modillions and a row of dentils crowns the building.</p> <p>The sidewalk between the stoop and wrought iron fence is inlaid with black and white checkered marble.</p>
