<b>C</b>	Important to street/groups	good fair <b>poor bad</b>
D	Insignificant/detrimental	good fair poor bad

Notable features:

This terrace is about the same date as that adjacent to it on Mulberry Street. Superficially they seem in poor condition, though none are vacant. To the south of it sundry and unsightly commercial uses blight the block. The corner house at number 318 has a corner store front and a rather interesting side entrance on Mulberry Street. (See second photo on sheet for 903-939 W. Mulberry.)

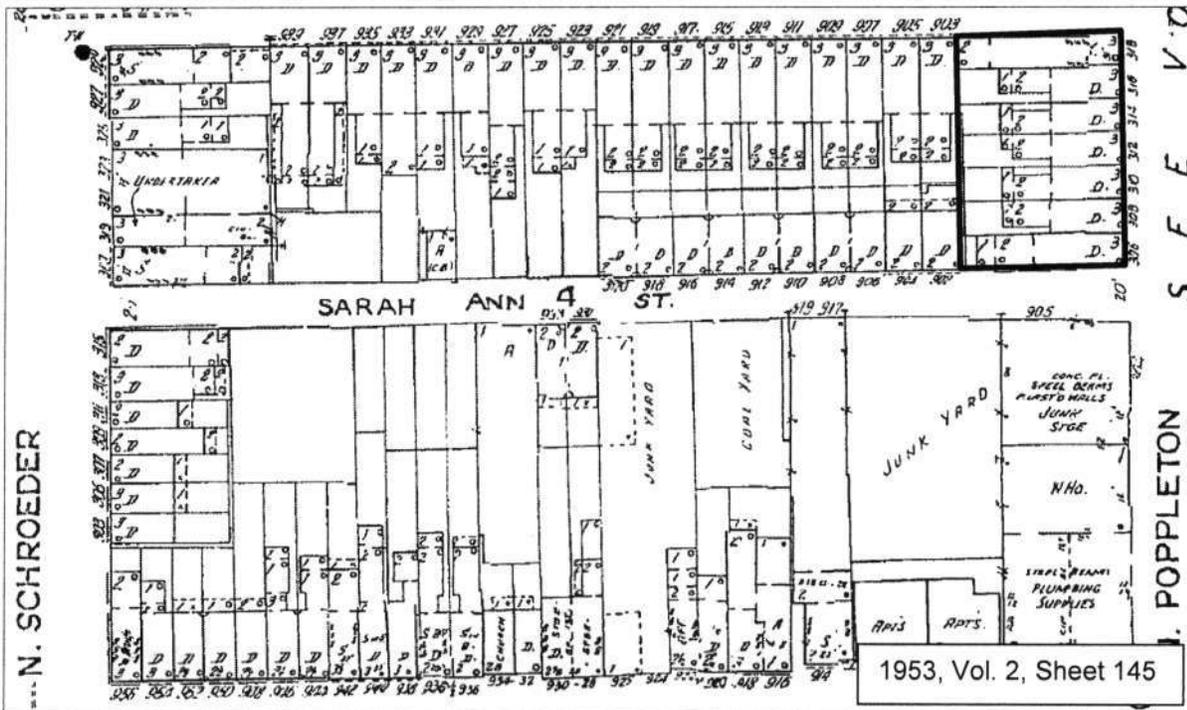

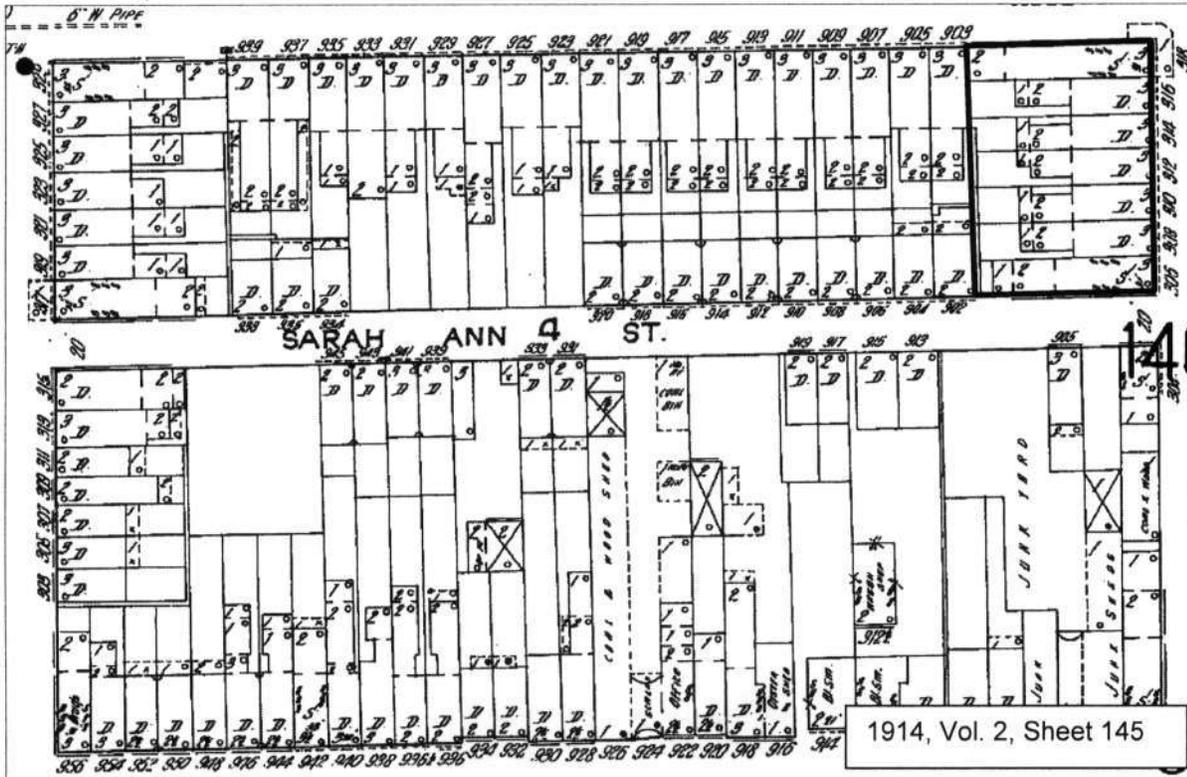

Environmental context:

Vacant lot at 306 N. Poppleton and all vacant lots across-street, plus vacant Amrhein buildings diagonally across. Retention of these houses depends on redesign across-street and to the south.
