Notable features:

The two-story shallow gabled houses are old, probably antedate 1851 (see attached deed study). Houses 1112 and 1116 in the east end of the block are earlier than their neighbors. There was considerable rebuilding in this portion of the block after 1870.

Formstone is everywhere as the pictures will attest, and it is a blight in spite of the fact that it is an indication of good maintenance. There is good iron work at 1144-1146. The group 1136-1148 are fairly typical of the 3-story, raised-entry-with-basement-door-under, 2 window wide house (12'-14').

The houses in poor condition should be repaired before they influence the others.

Environmental context:

There are no gaps, but 1100 and 1118 are vacant houses. Lombard Street runs in front of this terrace; it is busy and noisy, a one-way street which needs large street trees at a minimum. In spite of the noise and dirt, these houses are well kept and should be aided to remain so.
