Notable features:

Number 754 has iron lintels which should be salvaged when this building goes. The modern front on it should be removed.

These two buildings should be kept, if possible, to give the Fire House a setting and to relate to the buildings left by the Boulevard on the other side of Baltimore Street.

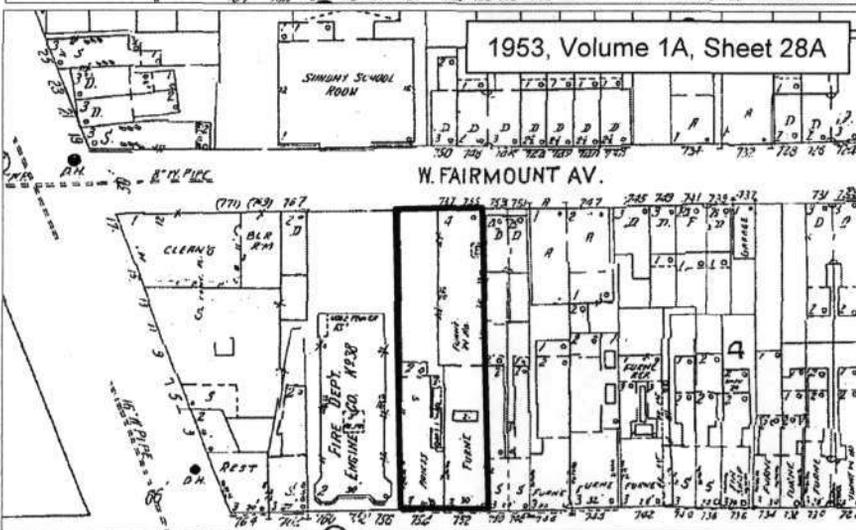

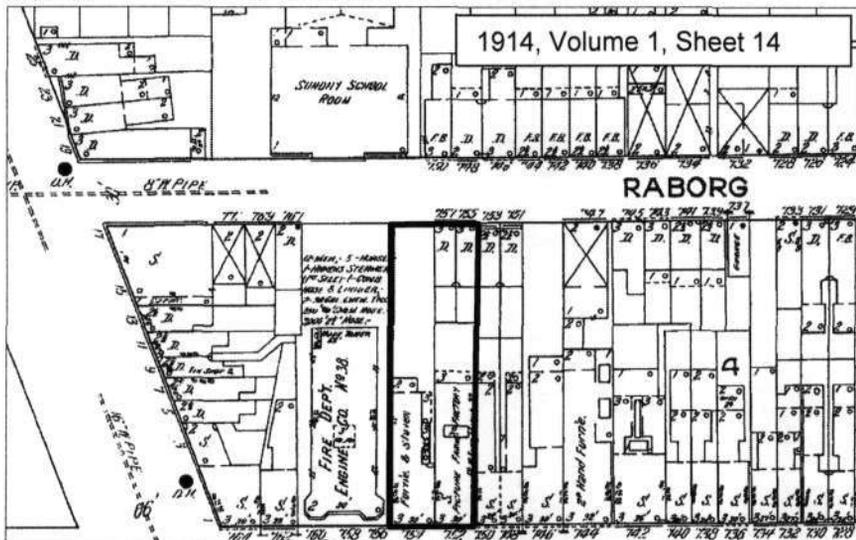

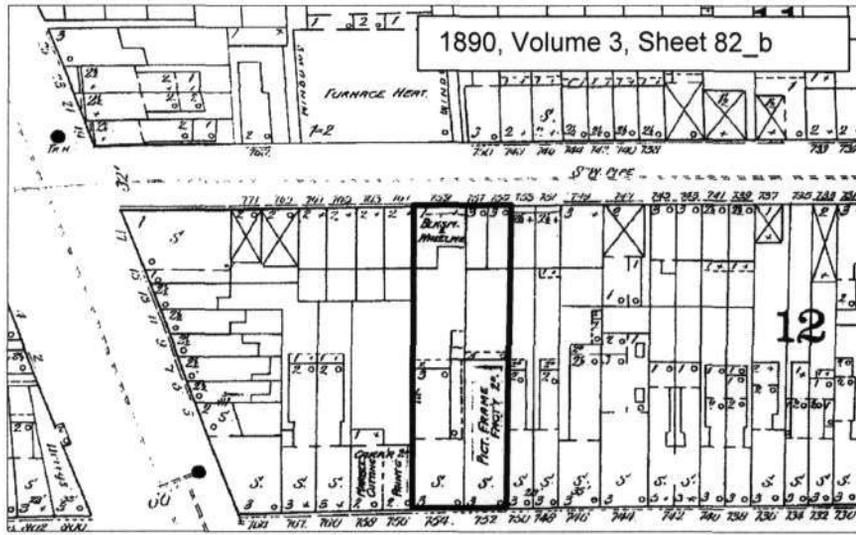

Environmental context:

Both 752 and 754 are vacant. Baltimore Street will continue across the Boulevard. These buildings, being close to the University of Maryland, might have a re-use as residential units.
