Notable features:

These houses are about the worst in the whole area. Vacancies, poor condition, altogether sordid, may be rundown beyond repair.

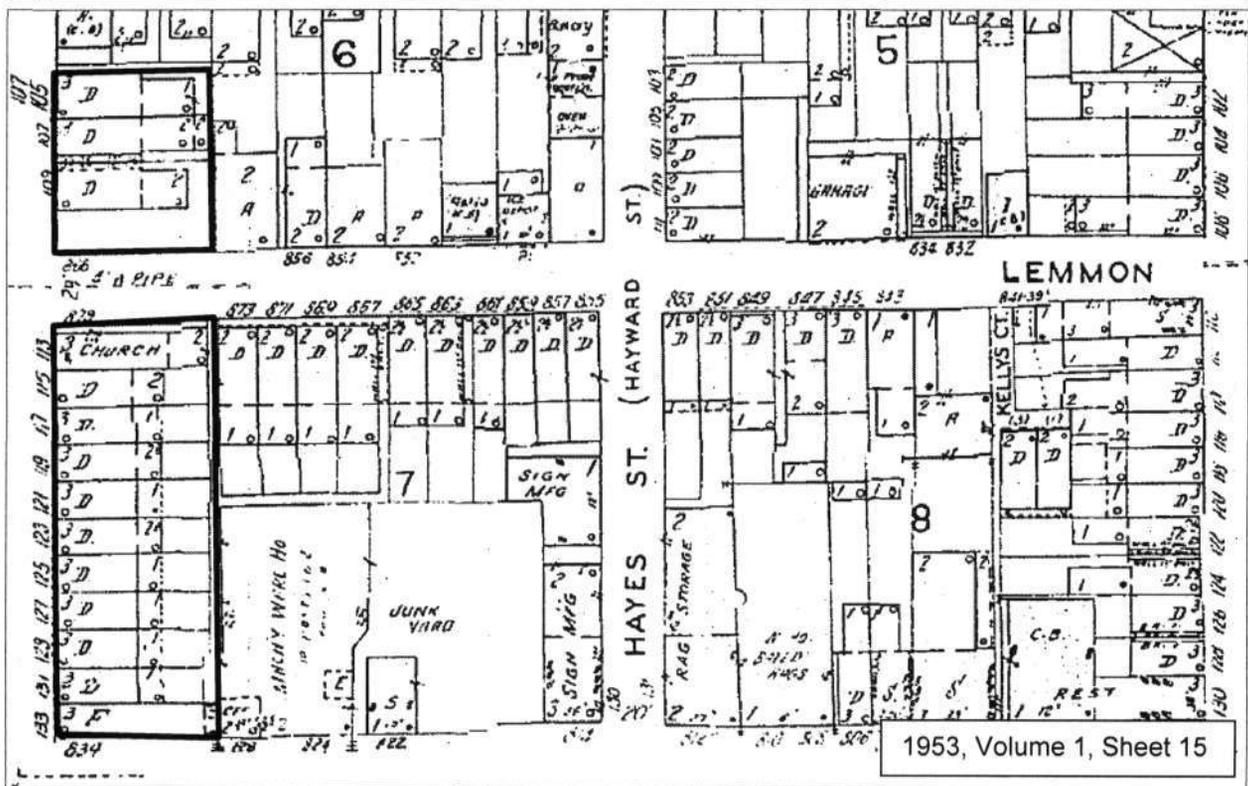

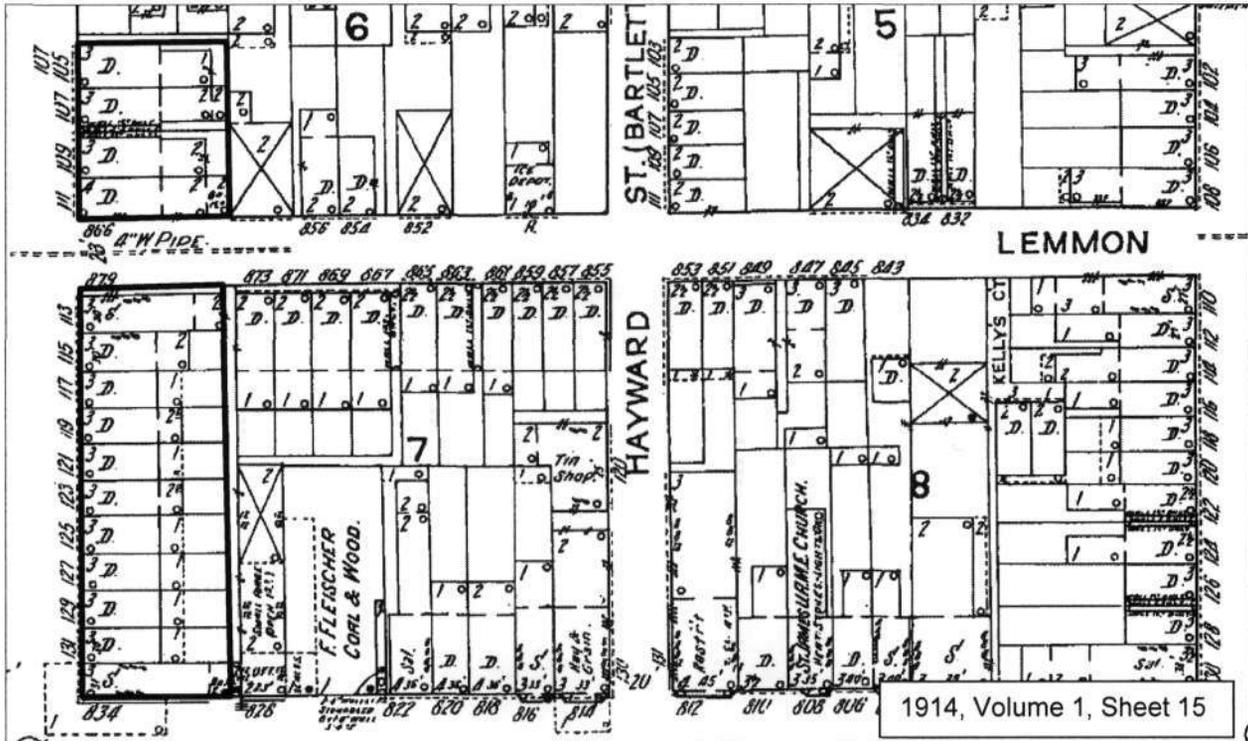

Something should be done about them. If they can be rehabilitated they should be; if not they should come down.

Environmental context:

Lots at 131 and 133 and at 111 have been cleared and vacant houses are at 109 and 125. Row opposite rather interesting if rundown. Dependent upon an overall re-design of area, this group could go or stay.
