<input checked="" type="checkbox"/> GOOD	<input type="checkbox"/> RUINS	<input type="checkbox"/> ALTERED	<input type="checkbox"/> MOVED DATE _____
<input type="checkbox"/> FAIR	<input type="checkbox"/> UNEXPOSED		

DESCRIBE THE PRESENT AND ORIGINAL (IF KNOWN) PHYSICAL APPEARANCE

This two story high, two bay wide building is in a row of nine similar structures. The row is an unusual arrangement of staggered houses, with broken individual facades and lot lines set ~~parallel~~ **OBLIQUELY** to the street front. (See maps, block 948).

The facade is composed of an entrance bay on the right with a two story bay on the left. A flight of three concrete steps leads to the entrance. A brick belt course extends around the three sided bay to the left, above a square basement window in the front face of the bay. The window has a flat splayed brick arch and is filled with wire screen.

All first and second floor wall openings are segmental arched with wooden sills. The entranceway has a wooden door, the upper half of which is fitted with four lights of glass. The rectangular transom above has two lights.

The second floor entrance bay and the front face of the left bay have double hung windows with 2/2 lights; the sides of the left bay have double hung windows with 1/1 lights. A wooden cornice runs at the roofline, supported on brackets which are placed on each face of the wall at a change in plane. A lower string of molding defines a brick freize and the molding above is cut with jigsaw work.
