DESCRIBE THE PRESENT AND ORIGINAL (IF KNOWN) PHYSICAL APPEARANCE

The building is three stories high and two bays wide. Both foundation walls and building walls are laid in common bond brick. The entrance surmounts one step and has a flat brick lintel. The doorway and most of the windows are covered with plywood. The fenestration is symmetrical with wooden sills and flat brick lintels. The windows of the third floor are smaller and square in shape. The building has a gabled roof and square chimney on the interior block side.

The side has an entranceway and three similarly styled windows. Two of the windows surmount the door and a third is to the left of the doorway. A small one story addition with a sloping roof lies to the rear of the house.

STATEMENT OF SIGNIFICANCE

This rowhouse building is one of the few remaining gabled buildings in Upton. It is very simple in styling and similar to many buildings throughout the city. However, such buildings have become significant in Upton because of the degree of their demolition in this area.
