

B-3196 - B-3200  
917-931 S. Hanover St. (East side)  
Baltimore, Md.  
Private access

1865-1871

This row of three story, two bay wide brick houses with shed roofs and bracketed cornices was built after the Civil War by George Williamson, an active local real estate developer. The only exception to the above description is 917 S. Hanover St., which is a three story, three bay wide house with gable roof, the only survivor of an earlier row of such houses which extended south from Warren Ave. to Churchill St. All of the houses are currently in a deteriorated condition.

**DESCRIBE THE PRESENT AND ORIGINAL (IF KNOWN) PHYSICAL APPEARANCE**

This three story, two bay brick house with shed roof and bracketed cornice was built, along with the adjoining houses to the south, in the late 1860's. The house shares the same cornice as its neighbors, 921-923 S. Hanover St. and all the houses in the row, extending down to 931 S. Hanover St. have quite similar cornices.

The house is three stories high, about 14' wide, and occupies a lot 90' deep. There is a three story high, one bay deep and wide stair hall extension which connects the main house to a two story high, four bay deep rear addition. The house is constructed in running bond. The shed roof is capped by a cornice of Italianate design consisting of a deeply projecting crown molding supported by a row of carved modillions set above a row of smaller carved modillions. There is a plain wood freize area and the entire cornice is supported by two carved end brackets, which connect it to a plain lower molding strip. There is a hooded chimney located along the south side of the house and a double hooded rear end chimney located at the eastern end of the first two bays of the rear addition.

The first floor door and window openings have segmentally arched brick lintels with solid wood tympanums. There are no lintels on the second and third floor windows. All of the sills are composed of a row of brick headers. The first and third floor windows are filled with 4/4 sash; the second floor windows with 1/1 sash. A late, six panel door is set beneath a single light transom. The house sits on a fairly low basement, the entrance being reached by three stone steps. There are two square-shaped coal openings, with flat wood lintels, set beneath the first floor windows.
