

B-3342 - B-3350
43-3 E. Hamburg St. (South side)
Baltimore, Md.
Private access

1839-1855

The entire south side of the unit block of E. Hamburg St. (except for 3-7 E. Hamburg St., west of Patapsco St.) is improved with groups of two and a half story, late Federal style brick houses built in the late 1830's and early 1840's by John S. Gittings and several other local carpenters to whom he sold lots. 3-7 E. Hamburg St. are two story, two bay wide gable-roofed brick houses built in the 1850's for working class tenants. They are quite similar to other two story houses lining Patapsco St. just to the south of these houses. A number of houses on this side of Hamburg St. are currently being renovated.

DESCRIBE THE PRESENT AND ORIGINAL (IF KNOWN) PHYSICAL APPEARANCE

This two story, two bay brick house with gable roof and dormer window was built in the 1830's and formed part of a group of such houses extending along this side of Hamburg St. The house had been covered with formstone but it has recently been removed.

The house is two and a half stories in height, about 13 1/2' wide, and occupies a lot 77' deep. The house is two rooms deep and there is a one story high, three bay deep rear addition. The house is constructed in running bond. The steeply pitched gable roof has a two-tier brick cornice and a dormer window located on both the front and rear roof gables. There is a double rectangular chimney located on both the front and rear roof gables on the east side of the house.

All of the door and window openings have splayed brick lintels and wood sills. All of the window openings are filled with new 6/6 sash. There is a modern six panel door set beneath a single light transom. The house sits on a fairly high basement, the entrance being reached by three sotne steps. A rectangular coal opening is located to the left of the steps.
