

B-3419 - B-3426
425-301 E. Hamburg St. (South side)
Baltimore, Md.
Private access

c.1845-1907

As with the 400 block of E. Cross St., this block of E. Hamburg St. is improved by a variety of house types, ranging in date over a broad span of years. 423-425 E. Hamburg St. is an unusual structure composed of a three story, two bay wide brick house with shed roof and first and second story wooden front porches, set back from the street, joined to a small two story, two bay wide gable-roofed house of somewhat later date. Immediately to the west, at 419-421 E. Hamburg St. there is a pair of similar two story, gable-roofed houses, undoubtedly built contemporaneously with the first mentioned such house at 423 E. Hamburg St., probably in the early 1850's. Moving west, at 403-417 E. Hamburg St. there is a row of late Victorian style, two story, three bay wide brick houses with shed roofs and bracketed cornices, built in the early 1890's by Henry Wessel, owner of Wessel's Department store at Charles and Hamburg Streets. To the west of this late row, at 337 E. Hamburg St., is another unusual house set back somewhat from the street, with its end wall facing the street and its two story, gable-roofed facade with first and second floor wooden porches facing east onto a wide alleyway. 335 E. Hamburg St. is a two story, two bay wide brick house with gable roof built in the 1850's, quite similar to 419-423 E. Hamburg St. 329-333 E. Hamburg St. is a group of two story plus attic, two bay wide brick houses built in the late 1840's. At the western end of the block, at 307-321 E. Hamburg St., there is a row of two story, two bay wide brown brick houses with shed roofs and sheet metal bracketed cornices, built in 1907 by Walter Hampson, and at 301-305 E. Hamburg St. there is a group of two story, three bay wide brick houses with shed roofs and bracketed cornices, built in 1890 by James F. Morgan.

 DESCRIBE THE PRESENT AND ORIGINAL (IF KNOWN) PHYSICAL APPEARANCE

This two story, two bay brick house with gable roof seems to have been built more or less contemporaneously with the adjoining row of two story plus attic houses at 329-333 Hamburg St. The house has been covered with formstone.

The house is two stories in height, 11' wide, and occupies a lot 162 1/2' deep. The house is two rooms deep and has a one story high, two bay deep rear addition. The house is probably constructed in running bond but the facade has been covered with formstone and the exposed east side wall stuccoed. The low-pitched gable roof has a two-tier brick cornice. There is a single rectangular chimney located along the east side of both front and rear gables.

The original treatment of the door and window lintels cannot be determined because of the formstone covering, but it appears that the openings had flat lintels. All of the window openings are filled with 1/1 double hung sash. There is a modern flush door set beneath a single light transom, the front of which has been covered over with siding. There is no basement and the entrance is reached by a single low brick step. A flat-roofed passageway extends back under the westernmost bay of the house.
