These five row houses are identical and were no doubt built all at once by the same builder. They are practically identical (slightly simpler detail) with the row houses on the north side of the square on Hollins Street. 1533 has scaffolding on it, and maybe undergoing rehabilitation. 1531 has large first story window with stained glass border. All have the proverbial marble stoop. 1525 has been fixed up, illustrating what could be done with the other four buildings.
