DESCRIBE THE PRESENT AND ORIGINAL (IF KNOWN) PHYSICAL APPEARANCE

The Stevenson Store is at the northwest corner of Stevenson Road and Hillside Avenue, facing east, oriented to Stevenson Road. Connected to its rear or west side is a Warehouse, its long facade facing north, oriented to the former railroad, a siding of which formerly extended close to and parallel with the north facade.

The STORE is of frame construction, two storeys in height, five bays in length, its exterior walls sheathed in straight-sawn vertical boards with chamfered straight-sawn battens, its roof a simple gable.

A one-storey porch shelters the four southerly bays and the fifth or northerly bay is slightly wider. The principal entrance is in the center bay and it is flanked by wooden bay windows, each with fixed sash having two lights in the diagonal faces and four in the wider central panel. The walls beneath the windows are paneled. A third bay window is in the extreme northerly bay, each face with a 4/4 window. Second storey windows were 3/3 but some sash have been modified with a single large light. Windows of the ends are 6/6, two in the first storey, one centered in the second.

The interior is a single space with contemporary commercial finishes and fittings. Above the suspended acoustical ceiling is the original of beaded boarding. The second storey is now a rented apartment; formerly it was employee's quarters.

The hyphen structure which connects the STORE to the WAREHOUSE is built over a small stream.

The WAREHOUSE is also of frame construction, two storeys in height, five bays in length, its exterior walls sheathed with straight-sawn vertical boards with chamfered straight-sawn battens, its roof a simple gable. Entrances to both storeys are in the second and fourth bays. Above are gables in the roof slightly raised as semi-dormers. The principal roof and the gables extends beyond the walls with a wide raked overhang supported by exposed rafters and outlookers.

6/6 windows are in the central and westerly bays, and two are in the west end in both storeys.

Each door is a single wide sliding door with perimeter and cross stiles and rails over diagonal wainscotting.

The interior is a single space with contemporary utilitarian commercial finishes and fittings.

STATEMENT OF SIGNIFICANCE

The STORE and WAREHOUSE are two commercial structures probably dating from the third quarter of the nineteenth century. These structures retain nearly-unchanged exteriors and they are still used for commercial enterprises. The verticality of the board-and-batten, and the multiple gables of the WAREHOUSE, suggest a Gothic-revival style for these utilitarian structures.

The Store and Warehouse were built about 1870 at Stump's Ridge and Garrison Forest Road (now Hillside and Stevenson Rds.) by the Northern Central Railway. Since 1857 the Northern Centeal Railway operated trains passing next to the store bringing commodities to the area. For many years the store was leased to Hilgerman and Bruin and was the familiar "Country Store" where the neighborhood could buy anything from groceries to wood and coal. On Sundays during 1906-7, services for the Stevenson Methodist Church were held here while the Church at Stevenson and Green Spring Valleys Roads was being completed. The store remained a "grocery" store until 1968. For several years it was a plant nursery but in 1972 it became Flowers & Fancies, a florist shop and catering service.
