

CAPSULE SUMMARY
BA-0241
Walnut Hill
8011 Redstone Road
Kingsville, Baltimore County
1775 ca.
Private

The circa 1775 Walnut Hill dates to a late 18th century period of settlement in and around the community of Kingsville in the Eleventh District of Baltimore County. In the late 17th century, Baltimore County was divided into three parishes—including St. Paul's, St. George's and St. John's—the latter of which encompassed the land surrounding the present-day town of Kingsville on the east side of the county. The land southeast of Kingsville on which Walnut Hill was built was known as "Expectation" and belonged to Elizabeth Gassaway. Colonel Edmund Acquilla Howard later owned Expectation in addition to a 300-acre property known as Woodcock Hollow near it. Although Howard's name appears next to the dwelling on the 1850 county atlas, it is difficult to determine whether or not he was the individual who occupied the house. The land to the southeast of Kingsville developed separately and became Upper Falls Post Office. To the east, Franklinville was taking shape. Walnut Hill fell in the middle of these three communities. By 1915, Walnut Hill was occupied by "F. Winith." The 18th century dwelling is now the center of a circa 1980 residential subdivision.

Initially constructed circa 1775, Walnut Hill is a two-and-a-half-story random rubble stone masonry dwelling that has been altered over the last fifty years. The building presently fronts northwest in the middle of a circa 1980 subdivision. Adjoining a two-bay-wide block is a two-bay-wide stone wing with vinyl cladding on the overhanging upper stories. Two reconstructed stretcher bond brick interior chimneys rise from the roof ridge of the side gable roof clad in corrugated sheet metal. The first chimney is located on the northeast gable end while the second chimney is centrally located on the interior of the structure. The solid stone portion of the building is two bays wide and features two 8/8 vinyl windows on the first story and two 6/6 vinyl windows on the second story, all of which have vinyl surrounds. Between the two stories is a horizontal ghost line that spans the width of the two bays. The stone and vinyl portion of the building is pierced by a central entry with a sash-and-paneled single-leaf wood door with a molded wood surround beside a 1/1 vinyl window with a vinyl surround. A one-bay-square entry porch with a gable roof supported by square wood posts shelters the entry. Two 6/6 windows with vinyl surrounds are located on the second story, while the attic story is pierced by two two-light casements with vinyl surrounds. One-story vinyl-sided shed additions project from the southeast elevation. East of the house is a circa 1990 garage of wood frame construction clad in vinyl siding.

7. Description

Inventory No. BA-0241

Condition

excellent deteriorated
 good ruins
 fair altered

Prepare both a one paragraph summary and a comprehensive description of the resource and its various elements as it exists today.

Initially constructed circa 1775, Walnut Hill is a two-and-a-half-story random rubble stone masonry dwelling that has been altered over the last fifty years. The building presently fronts northwest in the middle of a circa 1980 subdivision. Adjoining a two-bay-wide block is a two-bay-wide stone wing with vinyl cladding on the overhanging upper stories.¹ Two reconstructed stretcher bond brick interior chimneys rise from the roof ridge of the side gable roof clad in corrugated sheet metal. The first chimney is located on the northeast gable end while the second chimney is centrally located on the interior of the structure. The solid stone portion of the building is two bays wide and features two 8/8 vinyl windows on the first story and two 6/6 vinyl windows on the second story, all of which have vinyl surrounds. Between the two stories is a horizontal ghost line that spans the width of the two bays.² The stone and vinyl portion of the building is pierced by a central entry with a sash-and-paneled single-leaf wood door with a molded wood surround beside a 1/1 vinyl window with a vinyl surround. A one-bay-square entry porch with a gable roof supported by square wood posts shelters the entry. Two 6/6 windows with vinyl surrounds are located on the second story, while the attic story is pierced by two two-light casements with vinyl surrounds. One-story vinyl-sided shed additions project from the southeast elevation, obscuring the openings on the first story.

East of the house is a circa 1990 garage of wood frame construction clad in vinyl siding. The building features a poured concrete slab foundation and an asphalt-shingled side gable roof. Two roll-up vinyl doors and one 6/6 vinyl window pierce the façade of the one-story structure.

¹ Exterior architectural analysis could not determine if these two distinctly separate portions of the building are contemporary to each other, or if they are not, which was constructed first. Additionally, no construction date could accurately be determined by the exterior architectural survey. It is believed that an intensive-level survey would aid in the determination of the dwelling's architectural evolution.

² Initial architectural analysis could not determine the cause of this line.

Evaluation for:

National Register Maryland Register not evaluated

Prepare a one-paragraph summary statement of significance addressing applicable criteria, followed by a narrative discussion of the history of the resource and its context. (For compliance projects, complete evaluation on a DOE Form – see manual.)

The circa 1775 Walnut Hill dates to a late 18th century period of settlement in and around the community of Kingsville in the Eleventh District of Baltimore County. In the late 17th century, Baltimore County was divided into three parishes—including St. Paul’s, St. George’s and St. John’s—the latter of which encompassed the land surrounding the present-day town of Kingsville on the east side of the county. The Day family owned significant amounts of land in the Kingsville area, and was active in the formation of St. John’s Parish, an outgrowth of the parish church in Joppa.³ The land southeast of Kingsville on which Walnut Hill was built was known as “Expectation” and belonged to Elizabeth Gassaway. Colonel Edmund Acquilla Howard later owned Expectation in addition to a 300-acre property known as Woodcock Hollow near it.⁴ Although Howard’s name appears next to the dwelling on the 1850 county atlas, it is difficult to determine whether or not he was the individual who occupied the house. By the mid-19th century, the nearby community of Kingsville was only sparsely developed with a few dwellings and St. John’s Episcopal Church, which was located at the crossroads of Belair Road and Joppa Road.⁵

Between 1850 and 1877, a few more dwellings and a Lutheran Church were erected along Belair Road to the north its intersection with Joppa Road. The land to the southeast of Kingsville developed separately and became Upper Falls Post Office. To the east, Franklinville was taking shape. Walnut Hill fell in the middle of these three communities.⁶ By 1881, the population of Kingsville had reached 150 individuals, and the small community’s building stock included a public school.⁷ Upper Falls, which developed as a quick pace, reached a

population of 100 in 1881 and was home to a rectory, school, general store, undertaker and two churches in addition to the numerous dwellings that were centered on the intersection of Bradshaw and Franklinville Roads. Franklinville developed as a milling town centered on cotton mills along the Little Gunpowder Falls.⁸ By 1915, Walnut Hill was occupied by "F. Winith."⁹ Through the mid- to late 20th century the land surrounding Walnut Hill has been greatly subdivided, and the 18th century dwelling is now the center of a circa 1980 residential subdivision.
