LEE WILBURNE HOUSE

Willows

early 19th and early 20th century

Private

This is one of several homes in the northeast portion of the county which were remodeled during the second decade of the 20th Century and which exhibit such common features as deeply corniced gables with fishscale shingles, a central pediment and gingerbread front porch. The five bay width is common. The tall  $2/2$  windows, deep cornices and central pediment give these houses a certain monumentality which the farmhouse has at other times lacked.

**DESCRIBE THE PRESENT AND ORIGINAL (IF KNOWN) PHYSICAL APPEARANCE**

The Gingerbread front porch, fishscale shingled gables, central pediment with deep cornices and high ceilings with 2/2 windows make the front (N) section of this house a Late Victorian classic. Like so many others, it is a five-bay wide and two deep farmhouse with a small one-story addition on the rear (S). Experience suggests that the Victorian house may have been added onto the cabin, but a relative of the owner seems to recall that that portion was moved there from another site.

The white clapboard siding and dark green trim are a popular motif found on many buildings in the county which date from the 1920's.

An interview with Mrs. Lee Wilburne confirms some of the above assumptions. Mrs. Wilburne and her husband moved here in 1928 and says that the house was built about 12 years before by Charles Dorsey. She understands that the house was originally one-story with dormers and that the Victorian appearance is the result of remodeling. Log joists were observed under the rear wing which is said to be part of an old log house.

Notable Victorian features on the inside of the house included imitation oak or "marbled" pine moulding, bulls-eye corner blocks, and mantels. The parlor (central hall plan) has an elaborate oak mantel. The front (N) entrance includes a frosted glass door with transom and side panels.

The house was heated with wood stoves using the interior flue; at either end.
