Prepare both a summary paragraph and a general description of the resource and its various elements as it exists today.

This house faces west onto Solomons Island Road. It is a mid-twentieth-century bungalow, just like CT-895 and CT-896. Set on a low concrete-block foundation, it is a wood-framed structure covered with asbestos shingles. It has a gable roof and is two rooms deep. The three-bay facade is composed of a central doorway and flanking pairs of windows with six-over-one double-hung sash. The front doorway is sheltered by a segmental-arched and gable-roofed stoop. An upper story is illuminated only by pairs of windows in the gable-end walls.
