DESCRIBE THE PRESENT AND ORIGINAL (IF KNOWN) PHYSICAL APPEARANCE

The Choptank School is located on the northeast side of the intersection of Maryland Avenue and Main Street in Choptank.

The school is constructed in a T-shape of frame and clapboard on a brick foundation. The west facade has two entrances in the projecting gable roof section. The gable has a molded cornice that returns at the corners. On the sides of the projection are single 6/6 pane sash windows and similar windows are also on the west elevation of the main section of the school (the north one is presently blocked in). The south gable end of the main section has a single entrance. There is a single brick chimney stack on the ridge of the projection roof approximately where the projection meets the main section.

BUILDER/ARCHITECT

STATEMENT OF SIGNIFICANCE

Choptank School is a significant structure associated with education of the community and the County. Like many of the small community schools, Choptank was a modest structure with little architectural pretensions. It was constructed by the county around 1892 and was later altered.

"Before 1900 it was a one room school - north wing.

- (1) Shortly after 1900 a primary room was added - south wing.
- (2) Later a west wing for older children was added. Because of decline in enrollment, use of new west wing was discontinued. By 1918, used only for social events such as band practice - box socials, etc.
- (3) It fell into decay and most of the west room was cut off - leaving only cloak rooms for other two rooms.
- (4) Turned into dwelling. Porch was added also french door entrance. New kitchen end taken from part of first building. Woodshed and toilets destroyed."
