Prepare both a summary paragraph and a general description of the resource and its various elements as it exists today.

This vernacular and much-altered frame building dates from c. 1900. It is two stories tall with a gable front entrance. The storefront has a door recessed between display windows with transoms.

The original appearance of this building has been altered by the addition of insul-brick siding and a large wood awning across the first floor windows. The aluminum siding was put on in September 1983.
