

Staff House (Building 10), Henryton Sanatorium
CARR-1622
Carroll County
Marriottsville Vicinity
1940
Public

The Staff House (Building 10) consists of a two-and-one-half story brick building constructed circa 1940 with a stone foundation and a slate-covered hipped roof . The building's main block is seven bays in length and contains a hipped-roof with three hipped dormers on both its front and rear elevations. One-bay by three-bay brick wings flank the north and south side elevations of the main block. Both wings have hipped dormers and gable-on-hipped roofs, with the gable end containing glazed panels. A one-story brick, gabled-roof addition with a hipped-roof bay extending from its north end has been appended to the north side of the north wing. A metal fire-escape has been attached east or rear of the south wing.

Construction of the building began in 1938 as a staff house for white employees and was completed by 1940. The building also incorporates aspects of Georgian Revival form and ornament popular for large public buildings during the early twentieth century, and utilized for most of Henryton's larger structures.

Documenting the establishment and evolution of tuberculosis healthcare facilities in Maryland, The Staff House, Building 10, at Henryton Sanatorium as a contributing element to the Maryland Register eligible Henryton Sanatorium Historic District (CARR-1616). Building 10 also appears eligible for the Maryland Register as an individual resource under Criterion A, broad patterns of history, for its association with tuberculosis healthcare in Maryland between 1938 and 1962.

Prepare both a one paragraph summary and a comprehensive description of the resource and its various elements as it exists today.

The Staff House (Building 10) consists of a two-and-one-half story brick building constructed circa 1940 with a stone foundation and a slate-covered hipped roof. The building's main block is seven bays in length and contains a hipped-roof with three hipped dormers on both its front and rear elevations. The main block's west (front) elevation contains a single-leaf wood-paneled door sheltered by a shed-roof. One-bay-three bay brick wings flank each side (north and south elevations) of the main block. Both wings have hipped dormers and gable-on-hipped roofs, with the gable end containing glazed panels. The north wing has a one-light wood door with sidelights on its front (west) elevation, all sheltered by a shed-roof hood. The glazing on the door and sidelights has been boarded-up. A one-story brick, gabled-roof addition has been added to the north side of the north wing and has a hipped-roof bay extending from its north end. A metal fire-escape has been amended to the east (rear) of the south wing. The building has good overall integrity.

The interior of the building is subdivided into small apartment and dormitory units. Many room feature segmental arched doorways with double-leaf eight-light wood French doors with segmental arched glazed transoms. Many of the interior walls contain sizable holes from purposeful destruction.

Specific dates 1938-1962 **Architect/Builder** Unknown

Construction dates 1938-1940

Evaluation for:

National Register Maryland Register not evaluated

Prepare a one-paragraph summary statement of significance addressing applicable criteria, followed by a narrative discussion of the history of the resource and its context. (For compliance projects, complete evaluation on a DOE Form – see manual.)

Documenting the establishment and evolution of tuberculosis healthcare facilities in Maryland, the Staff House, Building 10, appears to constitute a contributing element to the Maryland Register eligible Henryton Sanatorium Historic District (CARR-1616). Building 10 also appears as eligible for the Maryland Register as an individual resource under Criterion A, broad patterns of history, for its association with tuberculosis healthcare in Maryland between 1938 and 1962.

Construction of the building began in 1938 as a staff house for white employees and was completed by 1940 (Board 1940:75). The building also incorporates aspects of Georgian Revival form and ornament popular for large public buildings during the early twentieth century, and utilized for most of Henryton's larger structures. The Staff House was completed by 1940. Additional staff housing was constructed at the hospital during this time because quarters in building #3 – Nurses' and Staff Quarters, were being used to house only the hospital's ever increasing nursing staff (Board of Managers 1940:75). The Staff House was designed to include both apartments and dormitories. The building contained two apartments on the first story, individual dormitory rooms on the second story, and a single apartment in the attic story (Riggs-Warfield-Roloson 1953-59).

The Henryton Sanatorium was one of four state-operated tuberculosis sanatoria established during the early twentieth century that represented a significant part of Maryland's public health campaign to stop the spread of tuberculosis. The first state tuberculosis sanatorium was at Sabillasville, Frederick County, and opened in 1908. The other state sanatoria established after Sabillasville included Henryton (1923), Mount Wilson (1924), and the Eastern Shore Tuberculosis Sanatorium (1928). The Henryton Sanatorium was the first and only of the state sanatoria established for the treatment of African-American patients, whom statistical trends in Maryland show had a high mortality rate attributed to tuberculosis. The Staff House represents part of the expansion of the Henryton Sanatorium during the 1940s to meet the housing needs of sanatoria staff. It is also among the institutional buildings at Henryton designed in the Georgian/Colonial Revival style. The Colonial and Georgian Revival styles were popular with regards to institutional design in Maryland during the early twentieth century, and were incorporated in the individual building designs at other state tuberculosis sanatoria established during this era

10. Geographical Data

Acreage of surveyed property	46		
Acreage of historical setting	105		
Quadrangle name	Sykesville Maryland	Quadrangle scale:	1:24 000

Verbal boundary description and justification

The Staff House is located within the proposed boundaries for the Henryton Sanatorium Historic District. The proposed boundaries for the district include all of the historic Sanatorium parcel west of Henryton Road and north of the former B&O Railroad tracks as shown on Figure 3. These boundaries encompass the Sanatorium's historic setting and landscape features, as well as all surviving resources related to the property's use as a tuberculosis facility. The district has been documented as MHT inventory number CARR-1616.
