Uniontown

private

CARR-345 Jonathan Davis House
3469 Uniontown Road

John Kurtz sold **3469 Uniontown Road** to Jonathan Davis, a tailor, in 1811 for \$700. This price suggests that there were improvements on the lot at that time. Records indicate that under the stucco exterior is a brick structure, probably with log walls. The house appears as a brick structure in the 1837 tax assessment of Carroll County and in an 1854 land deed. The stucco was applied to the building in the 1920s by Dr. George Zinkham, who had an office just east of this house. The first story windows, with their double frames and three vertical panes over one pane sash, and the porch details also date from Dr. Zinkham's remodeling. Stucco was a popular remodeling technique during the early twentieth century and frequently contained tints or sparkles for decorative effects. 3469 and 3471 Uniontown Road represent another good example of attached buildings that are found in this earliest section of the village. 3469 Uniontown Road is also built into a slight slope in the ground which allows for an accessible basement level in a manner typical of this region's farmhouses.
