 Preparer's Eligibility Recommendation: Eligibility recommended Eligibility not recommended
 Criteria: A B C D Considerations: A B C D E F G
Complete if the property is a contributing or non-contributing resource to a NR district/property:
 Name of the District/Property: _____
 Inventory Number: _____ Eligible: yes no Listed: yes no
 Site visit by MHT Staff yes no Name: _____ Date: _____

Description of Property and Justification: *(Please attach map and photo)*

The Stonerville Inn (CARR-805) is located at 1416 Littlestown Pike. Built c. 1850, this house is located on the former location of the Stonerville Post Office, which is near Stonerville Hill. This house was constructed when the area was still part of Frederick County. The front façade of this home is six bays wide, features a front-facing gable with an arched window, a one-story porch, and a double front entry. The porch is hipped and supported by turned wooden posts with simple brackets. There were originally marble stairs that led up to the porch, but those were removed by the current homeowner, Mr. Foreman. A brick chimney is located at each exterior end of the roof. The exterior walls of the house are covered in vinyl siding, and the side-gabled roof is clad in standing-seam metal. A portion of the house is still clad in the original drop siding. Fenestration consists of six-over-one and six-over-six wooden double-hung sash windows. The working shutters are stored in the home's garage. A two-story ell displays a one-story, one-bay gabled entry porch on the south elevation and a one-story shed-roofed porch in the L created between the ell and main house. The original windmill has been removed, but the water tank that the windmill pumped water to is in the attic. Northwest of the house is a one-story, two-bay garage. The garage is clad in drop siding, and the gabled roof is covered in standing-seam metal.

The wide front façade with a double entry is a common architectural feature in the area. This house has no apparent association
