

CE-1268

Monroe House, Tome School for Boys
Bainbridge Naval Training Center
Port Deposit vicinity
Public (Restricted)
1902

Monroe House, a 1½-story stone building in a Beaux-Arts neoclassical style, was built as the dining hall for the Tome School and, with the three dormitories, formed the north end of the main quadrangle. In 1905, a new dining hall addition was added to the Tome Inn (CE-1263) and Monroe House became the gymnasium with the addition of a swimming pool and indoor "cage". In 1942, the Navy converted Monroe House for use as the base Officers' Club. It is currently the recreation center of the Susquehanna Job Corps Center.

Prepare both a summary paragraph and a general description of the resource and its various elements as it exists today.

Monroe House is a 1½-story stone building in Beaux-Arts neoclassical style with several additions located on the northeast end of the quadrangle of the former Tome School for Boys on the grounds of the Bainbridge Naval Training Center near Port Deposit, Maryland. It is now in use as part of the Susquehanna Job Corps Center.

The original portion of the building is the 1½-story stone section which faces the quadrangle. It has coursed ashlar walls with rusticated quoins, window arches, sills, and basement. A hexastyle Ionic portico in antis contains three main doorways with six-light double doors with paneled bases. Twelve-light transoms are over each doorway. Secondary doors to the end sections of the building also open on the portico.

The original slate gable roof has been replaced by composition material. Three dormers project from the roof on the main elevation. The central dormer is more elaborate than the others, with paired windows, a scrolled broken pediment with central pineapple motif, and scrolled consoles. The two flanking dormers have simpler triangular pediments and architrave trim.

At the rear of the building are a succession of additions. A low one-story stone extension contains a swimming pool and a taller gable roofed section with arched end windows contains a gymnasium. These two additions date from about 1905 to 1910 when Monroe House was converted from dining hall to gymnasium. The third section is a rambling, concrete block structure added by the Navy containing a snack bar and other facilities. An outdoor swimming pool was also built by the Navy immediately south of Monroe House.

The interior of the original section contains some original woodwork, although heavily painted. The mantelpiece is a particularly fine work reminiscent of English Renaissance woodwork.

8. Significance

Prepare both a summary paragraph of significance and a general statement of history and support.

Monroe House was built as the dining hall of the Tome School for Boys and, with the three dormitories, formed the main quadrangle of the School. In 1905, the School's enrollment had outgrown the dining hall and a new dining hall was added to the Tome Inn (CE-1263). Monroe House was converted to the School's gymnasium with the addition of the swimming pool and the "cage" or gymnasium proper.

When the Navy acquired the Tome School property in 1942, more additions were made to Monroe House to convert it to the base Officers' Club. It is currently being used as the recreation center of the Susquehanna Job Corps Center.
