

CE-810
HAASE HOUSE
Elkton
Private

third quarter 19th century

Constructed circa 1875, this typical two story frame house exhibits a center hall with flanking single pile room plan. Attached to the south (rear) facade is an earlier 19th century common bond brick structure, originally one story tall. This section of the house has been extensively altered with the addition of an upper floor, although the main block retains its Victorian appearance.

DESCRIBE THE PRESENT AND ORIGINAL (IF KNOWN) PHYSICAL APPEARANCE

The Haase House primarily dates from the third quarter of the 19th century. Attached to the back of the structure, however, is a earlier common bond brick structure. The present house faces north with the main gable running east/west.

The main block is a 2½ story 5 bay by 1 room balloon frame structure. The structure rests on an uncoursed stone foundation and is sheathed with weatherboard siding. The gables, including the front cross gable are decorated with round fish-scale shingles. The roof is steeply pitched and covered with composition tile.

The 5 bay north facade has a central entrance with corresponding symmetrical fenestration. The 2/2 sash has plain trim. The central entrance has a 4 light transom and 3 light sidelights with a panel below. A pointed arch sash is located in the cross gable to light the attic. The eaves are extended and left open. A single story shed porch extends across 5 bays and is supported with square piers and scrolled brackets.

The east and west gable end are similar with 2 2/2 sash on each floor and 2 four pane attic lights that flank the stretcher bond stove stacks.

The rear section appears to have been a independant structure and later incorporated into this Victorian house. The brick only rises a single story and continues with frame second story to conform to the height of the main block. The brick block is 2 bays across by one room deep. The south end windows and doors have been closed. The originality of the eastern openings is unknown since this wall has been stuccoed. A 2/2 sash with plain trim is found in the northern bay, and a later door on the entry. A single 2/2 sash is located on the second floor.

This section has been remodeled and is used as a kitchen. The interior of the main late 19th century block is typical of Victorian detailing.

SPECIFIC DATES

BUILDER/ARCHITECT

STATEMENT OF SIGNIFICANCE

Any architectural significance associated with the earlier brick block has been lost through alterations. The house stands as a late 19th Century house with typical Victorian features. The house is one of the few older houses in the immediate area. The house does appear on the 1877 Lake Atlas under the name of J. Simpers.
