This is a broad and rather low 2-1/2 story clapboard structure of late Federal design. It is three bays wide and three deep with a gently pitched A-roof. There is a central door. All the windows are 6/6 sashes. The windows on the first story have panelled shutters while those on the second are louvered. There is an enclosed chimney at each end of the house. The first story windows on the front of the house are actually French doors which open ~~out~~ onto the porch. This is a very simple but attractively proportioned structure. There is an interesting small out-building. It is a square privy with a pyramidal roof and decorative bargeboards along the roof line. There is also a large barn, well maintained and attractively decorated with wooden gingerbread.

This farm is very well-maintained and has good Victorian decorated out-buildings.
