**DESCRIBE THE PRESENT AND ORIGINAL (IF KNOWN) PHYSICAL APPEARANCE**

The *CRB* House c. 1890 is a 2½ story 5 bay by 1 room center hall frame house located on Ward's Hill Road just west of US Route 301. The house faces north with the main gable running east/west.

The frame house rests on a fieldstone foundation iwth stretcher bond brick exposed above ground. The entire house is covered with an asbestos tile over weatherboards. The roof has a medium pitch and is covered with composition tile. A two story two bay by one room kitchen wing extned to the south of the main block. A single story frame section extends even further south. Shed porches are found along the back of the main block and east side of the kitchen.

The north facade has symmetrical fenestration with a 2/2 sash and plain trim. A small gabled hood protects the central entrance. The eaves of the roof are extended.

The east and west gable ends are basically plain with 2/4 attic lights that flank the interior brick stove stacks that have been rebuilt above the roofline.

The south side is partially covered with the two story kitchen wing. The west wall of the kitchen wing jutts out farther than the gable end of the main block. 6/6 sash illuminate the interior but other wise the kitchen wing is similar to the main block. The previous kitchen, which is no longer used has vertical board siding, 6/6 sash, and a tin roof.

The interior was not seen but not worthy of time. A center does rise between the east and west rooms.

STATEMENT OF SIGNIFICANCE

The house is another example of a late 19th century five bay center hall plan that is commonly found throughout the area. This specific house does not appear on the 1877 Lake Atlas but was probably built soon after.
