DESCRIBE THE PRESENT AND ORIGINAL (IF KNOWN) PHYSICAL APPEARANCE

The Doncaster State Forest farmhouse is a very simple two story tall, one bay deep, gable-roofed frame structure with a one-story, gable-roofed addition to the rear. A one-story, open porch spans the main (east) facade. This facade is further distinguished by a doorway and a 6/6 double-hung sash window at the first story level, and two 6/6 double-hung sash windows in the corresponding positions at the second story level. Both the entrance and windows are framed by simple timber surrounds. An internal brick chimney is located in the southern gable end. Cornerboards provide the only decorative detail to this otherwise very unassuming structure.

A secondary entrance is found on the north facade of the one-story rear addition. A shed-roofed, open porch also spans this facade. Window treatment is identical to that of the main block. Cornerboards also outline this addition.

To the southwest of this house is a frame garage/workshop built by the Civil Conservation Corps in the 1930s.

Both the house and the garage are in excellent condition due to the fact that that they have remained active DNR rental properties.

SPECIFIC DATES

BUILDER/ARCHITECT

STATEMENT OF SIGNIFICANCE

The Doncaster State Forest farmhouse is a typical late-Nineteenth/early Twentieth Century rural dwelling found in abundance throughout southern Maryland. Isolated from any threat of commercial or residential intrusion, the house and nearby CCC-built garage are an essential contribution to the rural fabric of the park.
