| DESCRIBE THE PRESENT AND ORIGINAL (if known) PHYSICAL APPEARANCE | | | | | | |
| <p>This small house on route 16, at the corner of Dailsville Road, is composed of a small one and one-half story frame structure, three bays wide and one deep. It dates, probably, from the second quarter of the 19th century.</p> <p>To the west of the house is a two story section, dating from the third quarter of the 19th century. The house is a derelict, falling into the ground. The roof is almost gone, and the plates are going, and it is stuffed with hay.</p> <p>The stair rather than going straight up into the second floor, has a landing, turns upon itself to a small hall, off of which open two small chambers. There are no dormers in the house, only the gables have two windows on each side. That portion of the stair which returns upon itself is actually protruding in the east room down stairs.</p> <p>The two story part, on the west side of the house, stands about four feet from the earlier structure and is connected with a very tiny walkway. It is composed of a stair hall and a single room plus two story addition on the back composed of one room on each floor. There is no trim and virtually no molding. The only noteworthy molding in the house is that around the fireplace in the two story section.</p> | | | | | | |

STATEMENT OF SIGNIFICANCE

The building is of interest, because it represents the use of a two room hall and parlor with a stair between the two rooms. There is nothing inside of any merit at all.
