DESCRIBE THE PRESENT AND ORIGINAL (if known) PHYSICAL APPEARANCE

From the exterior, which was the only access at the time, Corner's Wharf house is a puzzle. It is a two level, long, one and one-half story frame structure with a tower-like projection from the center of the building. The western portion has three windows on the first story and two dormers. The tower contains the entrance and is built mostly onto the lower section. East of the tower is a pair of windows with dormer above and finally two windows with dormers between. A chimney exists at both ends of the building.
