RECORDED BY:

East New Market Historic District Commission

ORGANIZATION:

Summer, 1985

DATE RECORDED:

THE BAPTIST CHURCH

A decorative tin ceiling in the church. Arched alcove supported by Doric columns. 2 recessed columns for support in corners. Floor is interesting as boards are diagonal and joined in center of floor. 4 metal braces across ceiling for support (the church is built over a spring).

A square, enclosed belfry with replaced steeple. Asphalt tile roof. 1 story, concrete construction, very high foundation. Louvered arched openings, front and each side, to enhance sound when bell is ringing. Over all windows there is a brick trim consisting of headers and extending partially around the church is a belt course, also of headers.

In projection at entrance there is a glass window in block design on each side.

Front facade is 3-bay; 2nd has double wooden doors. A 3-bay wing with 8-pane casement windows. 2nd bay has 6-pane light with 2 recessed vertical wooden panels.

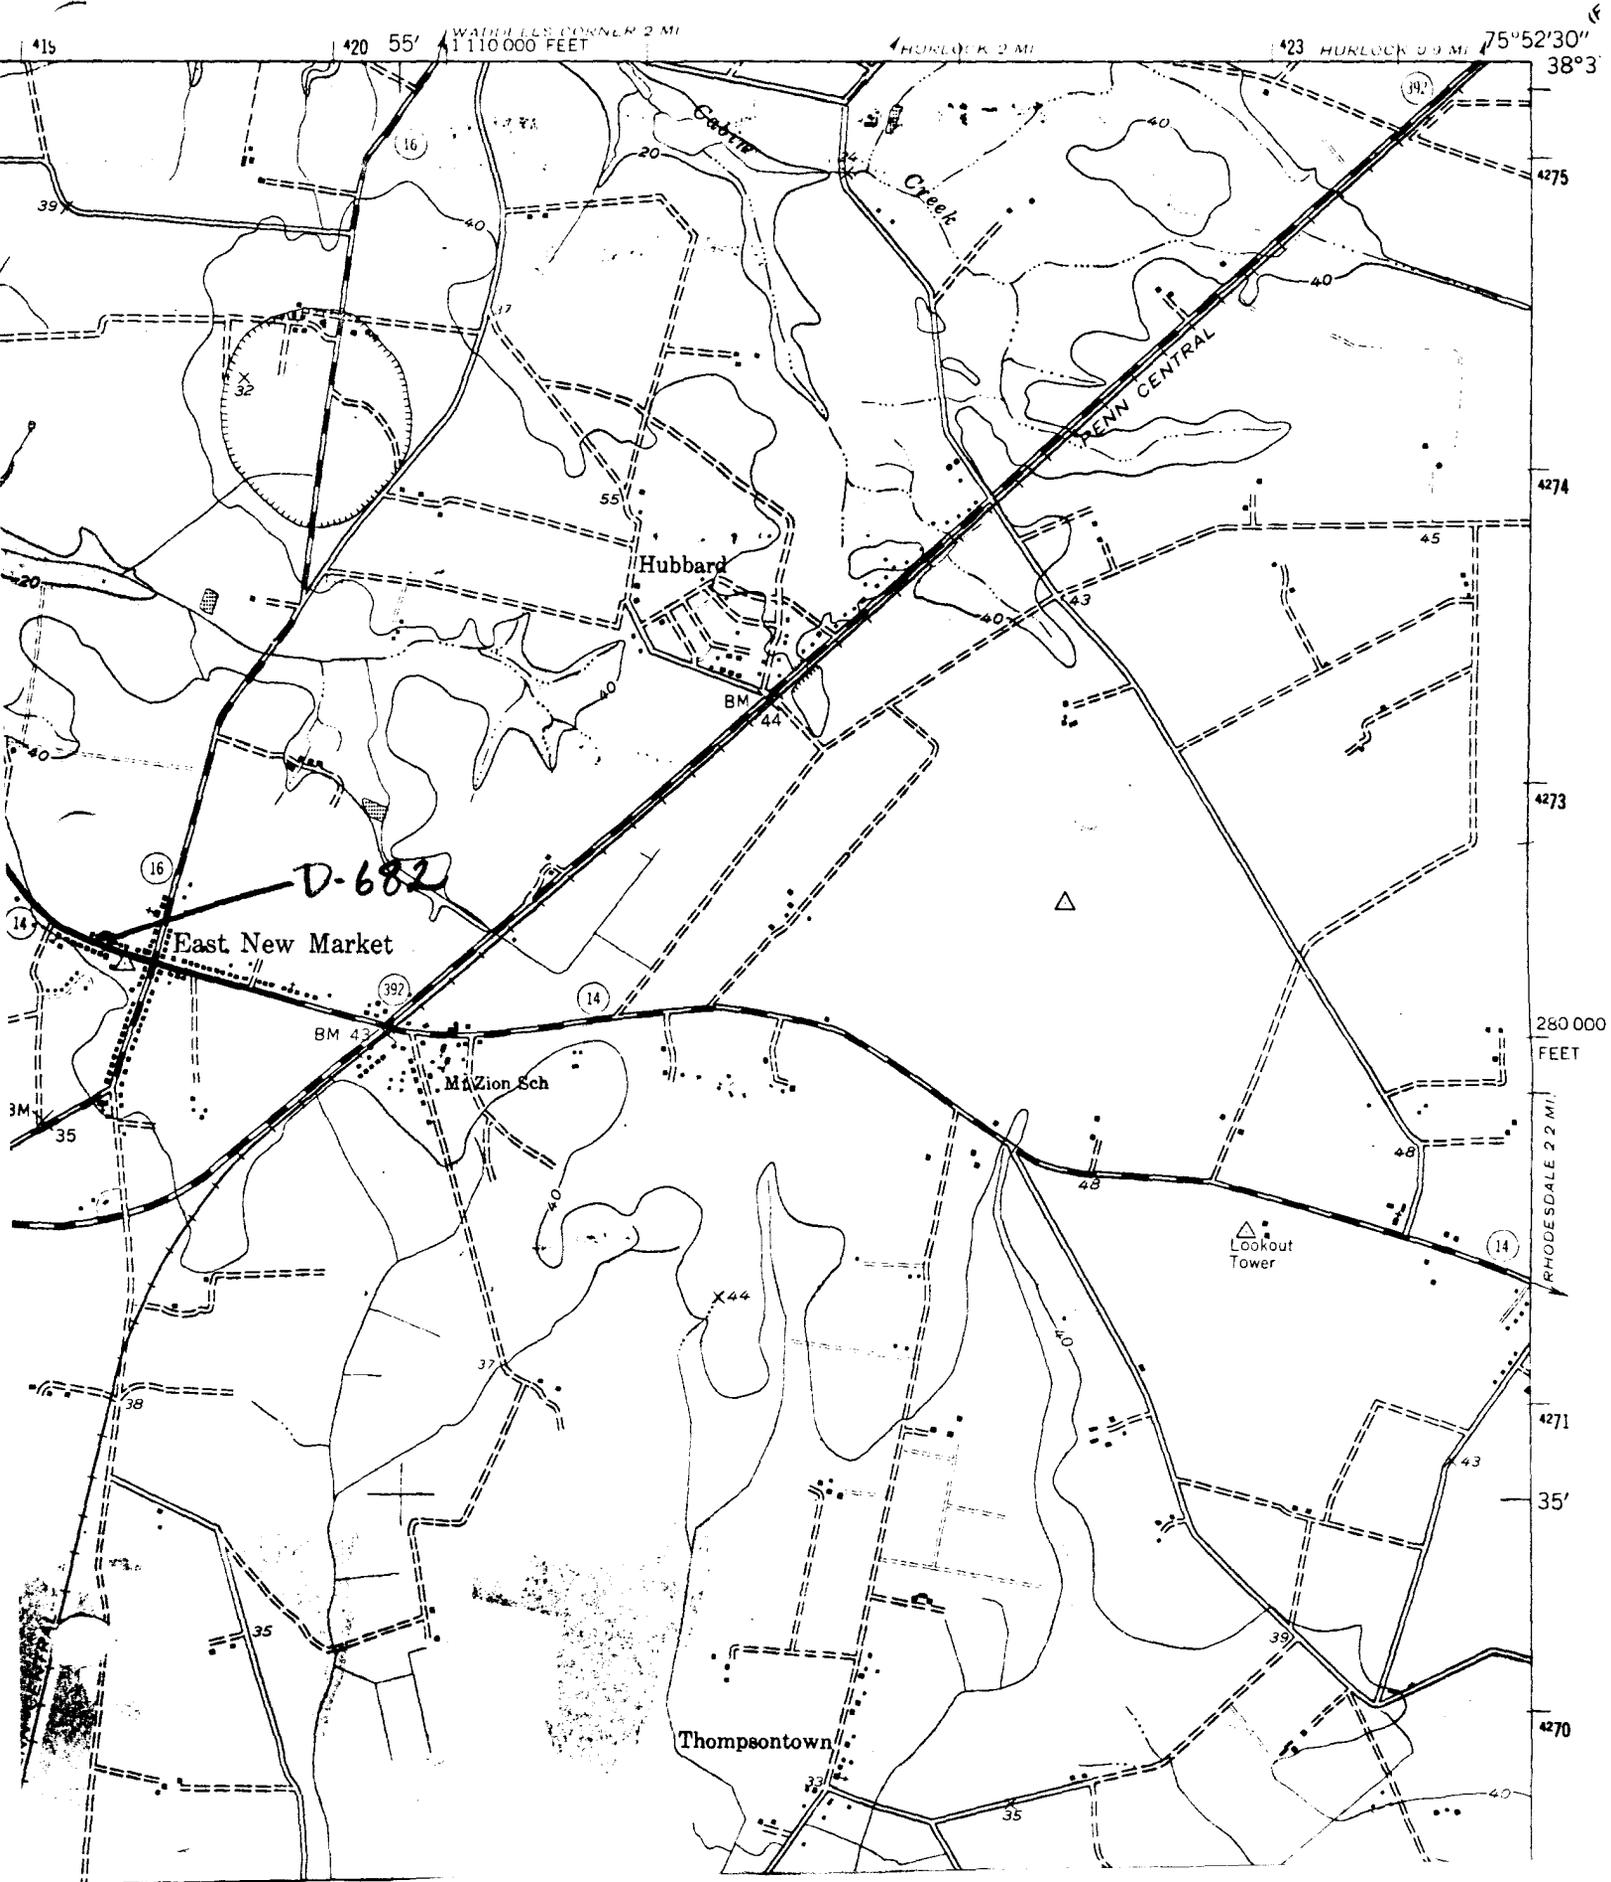

On the left side there are clusters of three 8-pane frosted casement windows. Transom over windows in quatrefoil design.

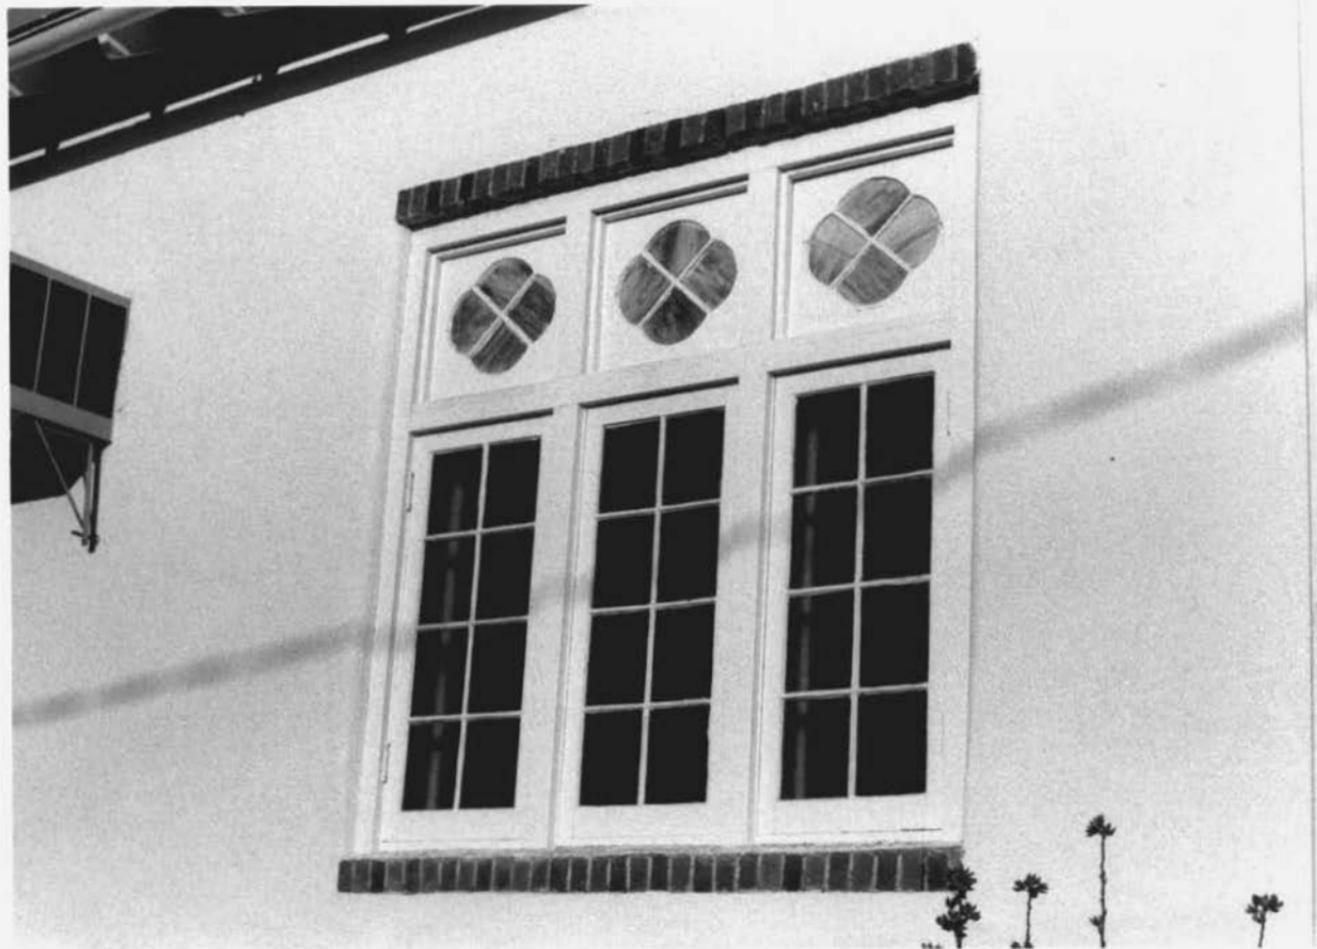

3 bay back, casement windows, exposed rafters. Outline of where a chimney stood.

Two off center chimneys with corbels.

This structure has a Spanish Mission style.
