DESCRIBE THE PRESENT AND ORIGINAL (IF KNOWN) PHYSICAL APPEARANCE

The Jack Harris House is a two story Bungalow style frame and brick residence which faces east from the west side of Route 85 in Buckeystown.

The principal side is three bays wide. The main entrance, an original paneled door with vertical lights and one light transom is located in the second bay.

Occupying the remaining two bays on the first level are large unusual double hung windows with 4/1 sash set into arched openings. The top sash has four vertical panes over a single bottom pane.

The large overhanging roof accommodates a front porch supported by tapered columns.

A two bay wide gable extends from the roof over the main entrance. The gable is covered by an asphalt jerkinhead roof with open rafters. The dormer is covered with aluminum siding. Narrow 1/1 windows occupy each bay.

The north and south gable ends are extremely wide and are accommodated by a gently sloping gable roof.

Unusual twin double hung 3/1 windows located in arched openings with double header arches occupy both bays on the first level of the north side of the building and the east bay on the south gable side. A single 3/1 window is located in the west bay on the south gable. Twin 3/1 windows are located in the gable on the north and south ends.

The first level of the building is constructed of brick laid in stretcher bond on a brick foundation.

Each gable is covered by asphalt over frame siding. An asphalt roof with plain boxed cornice covers the building.
