## DESCRIBE THE PRESENT AND ORIGINAL (IF KNOWN) PHYSICAL APPEARANCE

This house is located on the west side of Rock Hall Road, in Rock Hall, a small settlement east of the town of Point of Rocks in southern Frederick County. The house faces southeast toward the road, and is two stories high, gable roofed, and four bays wide. A one-story wooden porch is located on the principal facade. The building is probably either of log or frame construction, and is now sheathed with white asbestos shingle. There is one interior chimney on the south end, and one chimney slightly to the north of center on the roof ridge.

The principal facade contains two doors on the first floor, one in the first bay from the north end, and one in the second bay from the south end. The four windows on the second floor and the two on the first floor are 2/2 double-hung sash. The north gable end wall is blank, with no windows. A one story shed roofed addition is located on the rear of the house.

## STATEMENT OF SIGNIFICANCE

This house at 4085 Rock Hall Road is architecturally significant for its four-bay wide facade and two central front doors, features usually associated with Pennsylvania German influence. The house is one of only a few four-bay wide houses observed in the Point of Rocks-Doubs area in southern Frederick County, an area generally thought to be dominated by English settlement. This land was originally part of Charles Carroll's "Carrollton Manor". Scharf (Vol. I, p. 567) however, does note that at least half of the pioneer settlers in the Buckeystown district were German.

The house is not shown on the 1873 Lake atlas of Frederick County, but it does appear on a 1913 U.S.G.S. topographic map of the county.
