DESCRIBE THE PRESENT AND ORIGINAL (IF KNOWN) PHYSICAL APPEARANCE

The Donald Duley House is a small two story gable roofed frame residence which faces west from the east side of Route 85 in Buckeystown.

The principal facade is three bays wide. The main entrance, a replaced paneled door with painted over three light transom is located in the second bay.

Occupying the remaining bays are 2/2 windows which until recently were flanked by louvered shutters.

A decorative one story frame porch with dentiled cornice, sawnwork brackets and heavy boxed columns extends across the front of the house and is the most distinctive architectural feature of the building.

The main block of the building is one room deep. An original two story addition with two story open porch which faces south extends to the rear of the building.

The entire structure is built on a low random stone foundation. The building is covered by a flank gable standing seam tin roof with boxed cornice and return. The original novelty siding over log finish has been covered by asbestos siding.
